Introduction

Astrology is as old as measured time. Although there are many different approaches to astrology, all astrologers appear united in the idea that there is a connection between the heavens and the Earth -- they share one common space. For centuries there has been a misunderstanding concerning the nature of astrology to the effect that the heavens somehow "influence" events here on Earth. This theory of celestial influence has penetrated into the modern world until today it is the main concept or idea of astrology supported by the public -- the lay astrological audience.

Professional astrologers do not hold with theories of celestial influence. Instead, the modern astrologer conceives of the heavens and Earth as united, interpenetrating, and sharing a common space and time. The great cosmic or celestial events happening around and beyond the Earth (eclipses, lineups, and so on) are not seen as CAUSING events to occur on Earth, but as great signatures of events ALSO happening here on Earth. In other words, there is no "cause" in the heavens followed by an "effect" here on Earth. Instead, both planetary and earthly events happen simultaneously and are mutually reflective. Neither is the cause of the other; both are the product of the moment, one acted out in the heavens above, the other here on the Earth below.

While astrologers don't feel that heavenly events are the cause of events here on Earth, they do feel that specific heavenly events are enacted here on the Earth too -- at the same moment. In other words, there is only one grand "play." The great drama enacted in the sky is also acted out (in exact detail) here on Earth in the same instant. Another way to say this is that the Earth is part of the cosmos and shares in that cosmic moment. Scientists have been discovering (for example) that sunspots, solar flares, and solar activity have a very definite (and almost immediate) effect here on Earth. Astrologers tend to feel that all major cosmic events such as eclipses are interactive; they represent an activity also taking place within us and our consciousness.

In summary, astrology is a study of heavenly cycles and cosmic events as they are reflected in our earthly environment and vice-versa -- a vast cosmic clock. Astrologers find the cosmic patterns revealed in the rhythmic motions of the planets a great help in shedding light on the seeming helter-skelter of everyday life. Astrologers may have their heads in the heavens, but only to better guide their feet here on Earth.

We hope you enjoy your Astro*Talk profile. It has been calculated using sophisticated astronomical formulae to ensure high accuracy. On the next page you will find a list of the zodiac positions of your natal planets along with the house cusps for your birth moment.

Your Rising Sign

First let's take a quick look at your ascendant, or rising sign. Astrologers want to know what zodiac sign is rising at birth, since this gives a picture of the way you appear or come across to others.

You are quick, witty, and much given to talk and communicating with others. You come across as intelligent, verbal, and perhaps a little on the nervous side. You tend to be changeable, being all things to all people.

Planet Aspects

The Lights: The Sun and Moon

At the time of our birth, the planets (through their configurations and relationships) tell us something about how things were when we were born. Each planet points to special qualities within us. Yet, of all the planets, the two most important planets to astrologers are the "lights," the Sun and the Moon. From where we stand here on Earth, the great shining Sun by day and the reflecting Moon at night are our constant companions. They have much to tell us as to where we have been and where we are headed.

The Sun: Your Self and Future

From the Sun comes light, that which draws us into life. The Sun represents all the changes we have not yet taken, that part of us that we have not yet experienced but are headed toward. The Sun represents our identity, or self, in that it is toward these that we are moving and developing. Thus, it also represents that which we will become: older people, authorities -- those we look toward, or up to. Our essence, or future. Teachers, gurus, and older (more experienced) people are represented by the Sun. The Sun is "hot stuff," those further up the road of life experience.

You are nothing if not compassionate. Interested in serving others, you worry about their welfare. You like to take care of everything, and are always redeeming, salvaging, and restoring. You believe in conservation in all things. You find yourself through response and service to others, to life.

Sun in Virgo

You are very fortunate in being able to grow and progress throughout your life without major difficulties. You can always find the resources you require at hand plus the necessary instruction in how to use them. An inner vision, coupled with the ability to see the "Big" picture, often finds you working as a go-between with others. You could even have a special gift for spanning the generation gap, bringing older and younger spirits together. A love of animals, children, older people, and the needy and downtrodden in general, is a lifelong trait.

Moon Trine Sun

Your ambitions may crash head-on with your value system, and any future progress may be

at the expense of current cravings. Even your own ambitions and future possibilities may not appeal to you if it means sacrificing the habits and appetites you enjoy. You may not appreciate older or more experienced persons or those in authority. On the other hand, your focus on career goals could brush aside much that you, in fact.

Sun Semisquare Venus

Being successful in life is easy, for you have a built-in sense of how to approach and unravel even the most difficult problems. You have an instinct for justice and the law, and you always know how to approach a problem from just the right angle. This ability makes you a natural counselor or guide for others, in particular regarding vocational matters. Working with and helping older persons is also suggested.

Sun Trine Jupiter

You come on strong and may tend to intimidate those around you. It's nothing you have done so much as something you are. Your presence and obvious concentration are very forceful, and you like to get down to essentials right off. This intensity tends to put others through a lot of changes. You are not afraid of a good confrontation, and you seldom pull any punches. You would be great at research or any work that requires digging, searching, investigating, and getting beneath the surface.

Sun Conjunction Pluto

The Moon: The Support System

Here is information about the kind of environment we create around us, our support system. It is not only the surroundings that we set up today, but the Moon also represents our past, the particular history and social background out of which we grew. Aside from our social background, the Moon governs all of the old habits that we have grown beyond. We tend to look down on, or back on, our Moon. It represents those experiences out of which we have come, all those younger souls who are unconscious, or "sub" conscious to our own level. This is why it is said that the Moon is a mystery planet, for it is both our parent and our child: our parent in that out of it we were born, our child in that we can't but respond to others who are now living as we once did.

Yours is the most practical of environments. You can manipulate every idea or situation and put it to good use. Emotions are seldom a priority, and you are always very practical and ambitious. Your career is central to everything you do. Farsighted and traditional, you enjoy success and the successful. You are, for the most part, unmoved by tears and feelings.

Moon in Capricorn

A special affinity for old people and for children, plus an innate love of animals, the helpless, and the underdog. An inner vision coupled with the ability to see the "Big" picture often finds you working as a go-between with others.

Moon Trine Sun

You have a knack for always finding assistance in whatever career moves you decide to make. In fact, your ability to rally support makes a public career of one kind or another quite

probable. Success is indicated in education, politics, or the law. You know how to attack and solve problems, whether personal or public. Chances are, your social skills mean that you are popular with almost everyone.

Moon Trine Jupiter

You are very original when it comes to home and surroundings -- the environment you build around you. This could also manifest in unusual ways of supporting yourself. Your mother may have been quite eccentric or your upbringing somehow different. When you have breakthroughs, they often come as insights into your immediate surroundings, home, and environment -- your support system in general. This could also manifest in your finding new and different ways to make a living. You may have new ideas about the past, history, and younger people, find it easy to create an unusual environment, and enjoy surrounding yourself with what is new and different.

Moon Trine Uranus

You have a built-in sense of what the public wants and can always come up with just the right image. You find it easy to work with the emotions and feelings of others, and with great imagination. Your sense of the ideal springs to life whenever other people are involved. A born arranger of atmospheres, you enjoy working with groups of people. You are also very creative when it comes to your home and surroundings.

Moon Sextile Neptune

You have natural psychological ability, in particular when working with the public. You can handle emotional and personal issues (vulnerable areas) where angels fear to tread. People sense this about you and trust you with sensitive matters, inner worries, and questions of personal identity. You have a real mission and a sense of purpose.

Moon Trine Pluto

The Inner Planets: Mercury and Venus

The planets Mercury and Venus have more to do with our internal and personal life than with life outside us. These inner planets are located between the orbit of the Earth and the Sun. We can look to qualities that are inside us. Venus indicates how we appreciate and measure our experience, how we value life. Mercury tells us something about how our mind works, how we think and communicate -- our intrinsic brightness.

Mercury: The Mind and Communication

Mercury is the light in our eyes, the ever-changing consciousness within us that moves from idea to idea. Thus Mercury has always represented thoughts, ideas, and the mental process in general. It governs not only ideas, but communications, too. Communications -- by phone, letter, spoken, or however -- are ruled by Mercury. Also thoughts, connections, phone wires, and everything that connects and conveys -- even conversations.

You have a fine mind and a great appetite for detail. You appreciate minute differences and

distinctions. A craftsman with an innate critical sense, you are always full of suggestions. Your careful, conservative mind wants to salvage every last thing. You possess a love for detail and trivia. Quick-minded.

Mercury in Virgo

Your thinking is probably anything but organized, and you could find it hard to study or exercise any real mental discipline. You run on and on in the word department, finding it difficult to limit yourself to the message at hand. Others may end up setting limits for you. Your free-form approach to conversations lacks responsibility and could result in confrontations with authorities. In other words, what you say could get you in trouble. At the very least, others find much of what you say and think impractical.

Mercury Opposition Saturn

You do a lot to fulfill the popular stereotype of the "genius," so obviously brilliant are some of the things you think and say. You have such an outpouring of insights that having a conversation with you can be a real experience. Your mind works like lightning. Words and thoughts sort of shoot out, illuminating whatever subject is at hand. You really do have very different ideas and ways of expressing them. There may also be a sustained interest in communication, computers, electronics, and all that is electrical.

Mercury Conjunction Uranus

Venus: Values and Discrimination

Venus rules our values and sense of appreciation. When we appraise or appreciate something, whether that be another person or a new car, this is Venus -- the sense of love and compassion we may feel. By the same token, this planet rules enjoyment too. Whether it be self-appreciation or just plain old decadent self-enjoyment by having a good time, this is Venus. When we go shopping or are on a spending spree, it is Venus that allows us to appreciate and value all the good things of life.

Big heart, big love, you are seldom petty. Given to grand gestures and dramatic scenes, you love independence and greatness in all forms and are very regal. You can be generous to a fault. Children and animals are high on your list of priorities. Fervently loyal, you are courageous and demonstrative.

Venus in Leo

Your cravings get you in trouble now and again. You appreciate things that are not always in your own best interest. Your ambition and drive to grow and progress may sometimes be at the expense of your value system, your sense of beauty, and the like.

Sun Semisquare Venus

You enjoy life yourself and value gusto and enthusiasm in those around you. Feelings are something you express with ease, and you appreciate others doing the same. Emotional drama is valued rather than avoided. Your appetite for action is probably well known, and well noted. Sports, outdoor activities, and everything physical are high on your list of favorites. Sex is, no doubt, also important.

Venus Conjunction Mars

Your love of family and home and lack of interest in external affairs (be they friends or work-related) needs to be noted and kept in balance.

Venus Opposition Midheaven

The External Planets: Mars, Jupiter, Saturn

The major planets outside the Earth's orbit (external to us) are Mars, Jupiter, and Saturn. These are the planets of the outer world -- life as we find it outside ourselves. Mars tells us something about the drive and energy we have, Jupiter shows us how to best channel that energy, and Saturn decrees what sort of material or territory we will be passing through. Again: Saturn tells us about the territory we will be going through, Jupiter the way or path through it, and Mars what kind of push or drive we can count on to keep going.

Mars: Drive and Emotions

Mars is the planet of emotion and inner motivation or drive. When we search for the meaning of something, life or whatever, it is Mars that urges us on, keeps us searching. Mars also drives us against things, too and sends us into war and combat. The urgency of Mars, the search for meaning, is identical to the need for union, yoga, and marriage. Mars is the planet of union, and marriage is the most common form of yoga. When we have questions about the opposite sex, we are looking at the planet Mars.

You are always center-stage and entertaining others. You have an almost fierce sense of pride and are very dramatic and expressive, sometimes forceful. You are a natural at sports, games, anything that "gets it out." Very emotional, you have strong likes and dislikes. You are good with kids, animals -- a teacher or coach. You act it out.

Mars in Leo

You have a natural appreciation for drive and energy, and probably love sports and an active life. Sex is important. You are often moved to appreciate life, and you don't mind emotion and sentiment one bit. You have a strong appetite for almost anything.

Venus Conjunction Mars

There could be a lot of emotional tension with this combination. You tend to set yourself against whatever forces of change manage to rear their heads around you. This is never more true than where your feelings are concerned. Your attempt to remain untouched and impersonal seems doomed to failure. Everything intrudes, gets too personal, and threatens to hurt your feelings. Your insistence on being an emotional island is probably interspersed with bursts of anger, even fits of rage.

Mars Semisquare Pluto

You are moved to secure yourself, always digging in. Home and family are your main focus, even at the expense of career. It would be good if you could work out of your home. Your emotions conflict with the public. You prefer one-on-one.

Mars Opposition Midheaven

Jupiter: Career and Life Path

Jupiter is the planet of success and simple survival, the way we have to solve the problems that confront us. Thus Jupiter has to do with the way in which we can be successful, our vocation. The Hindu word for Jupiter is Guru. Jupiter is the guru and guide, the way we go through life, our life path or vocation. Jupiter is the method each of us has for dealing with the laws of life, our Saturn, or limitations. Jupiter is the light or path. Jupiter provides us with our sense of direction, the path we are on, the way we handle life. It affects how we approach life's problems. It has always been an indicator of how successful we may be, our vocation.

You have a green thumb in many areas, able to cultivate and nurture almost any subject. Making money is second nature, and you are able to field ideas and bring forth growth and success. A steady worker, you could also be a backer or money man. Accumulation.

Jupiter in Taurus

You have a sense of justice and an innate ability to understand the law, whether natural or manmade. Showing others the way through or beyond the problems in their lives comes easy, for you sense how to manipulate the opportunities of life. Lucky.

Sun Trine Jupiter

Like a fish in water when in the limelight or in a group, you have an innate social charm. Political and lucky too! A natural sense of what's right or of the way to get things done brings great popularity, even renown. Law, education. Could be lazy.

Moon Trine Jupiter

You have real difficulties when it comes to matters of self-discipline. Your career suffers due to your lack of training and education. You go against authority, clashing with it rather than finding a way to work with and learn from it. You end up taking an unplanned course of action that lacks any organization and seldom holds up for long. Taking the easy way out can be very painful. You come back to square one again and again.

Jupiter Square Saturn

Saturn: Responsibilities

The process of finding out who we are (self-discovery) starts when we come to grips with whatever problems life presents to us and begin to get a handle on them. In other words, if we have not dealt with Saturn, or time (that is, if we don't have some control of time), there is little opportunity for other questions. Saturn rules the laws and limitations of this material world we all live in. Saturn indicates where we are bound to learn, the narrowness that makes our way felt, the walls that make homes possible. Saturn holds us together as much as apart. Saturn is said to be the great teacher, the planet that keeps us from getting carried away in one direction or another. Although it always seeks to limit and determine any thought, word, or action, it also defines and clarifies. Saturn is called the prince of the material world.

There could be problems with selfishness. You tend to ignore or avoid opportunities to help out and give of yourself. You fear the deeper, mystical side of life and need to practice putting

others before yourself. Also learn to use intuition and feelings. Lend a helping hand.

Saturn in Pisces

You can at times be unorganized and lack discipline in the idea and mental department. You have difficulty limiting and defining what you say or think and may tend to impractical schemes. It could be hard for you to concentrate and to study.

Mercury Opposition Saturn

You tend to pursue options and go off in directions without adequate organization and planning. You need discipline but have trouble submitting to learn it, preferring instead to take what appears to be an easier path, ending up short of your goals.

Jupiter Square Saturn

The Outer Planets

In the previous sections, we have dealt with planets that we can see with our naked eyes. In general, these planets refer to life as we know and live it and are the so-called historical or classic planets. Beyond these are three planets that are not visible in the sky and which have cycles longer than the average human life span. Since they are beyond Saturn or time, astrologers call them the trans-personal or transcendental planets -- the planets beyond the physical. One of the ways astrologers learn something about our life beyond time (eternal life) is through these three outer planets: Uranus, Neptune, and Pluto. Here we find information on how we discover ourselves (Uranus), how we understand and accept these discoveries (Neptune), and, in time, how we depend and identify with them (Pluto).

Uranus: Break-Thrus & Insights

Our responsibilities can tend to weigh us down, and we each have our particular ways of getting around (or breaking through) the mass of obstructions that tends to congeal around us. The planet that has to do with how we get beyond the difficulties and problems life presents us is Uranus. Here is the way insights come to us, how we discover or come to know and understand ourselves. It has to do with finding new uses for old things, and it rules inventions and sudden insights into our life -- everything that is unusual, eccentric, and out of the ordinary. It is the reverse of the status quo and is always unconventional and heretical. Uranus is, in many ways, the opposite, or undoing of Saturn.

You find new ways to serve others and you have brilliant insights into diet, health, ecology, conservation, and the like. New or alternate life styles and ways to make a living interest you. You are economy personified, always able to salvage and redeem anything. You like to tend and care for people and things. You relax by working.

Uranus in Virgo

The life of the party, able to loosen up even the most sober. Great at bringing out the best qualities of others, discovering hidden talents. New and innovative ideas regarding the social scene. Spontaneous, on the move. Independent.

Moon Trine Uranus

A genius perhaps -- at least others may think so. Your mind always manages to find a new and different way to think and to put your ideas into words. Brilliant, restless, and unusual. Computers, radical methods of thought, and communication are for you.

Mercury Conjunction Uranus

Secrets have a short half-life around you, for you have them out in a wink of an eye. You are brilliant when it comes to insights into the mind, psychology, and motivation -- yours or others'. Your intensity is obvious, and some may prefer to keep their distance rather than subject themselves to your laser eye. Nothing is passed over without being turned inside and out. Your analytical powers are superb, and you enjoy finding new avenues of inner growth.

Uranus Conjunction Pluto

You are most original when concentrating on areas of work and family where you feel secure. You are a private person and find all the pomp and circumstance of social life repressive and boring.

Uranus Square Ascendant

Neptune: Ideals & Imagination

Even the most hard-nosed of us have moments of real understanding, when things are seen as linked together and one piece. We stop getting the idea in little flashes and just get the whole thing. It dawns on us. We each have our own way of letting go, having communion, and (as the poet wrote) letting "the dewdrop slip into the shining sea." These moments and this state of mind are, in fact, the source for all our imagination. There are many ways of seeing through the separateness in the world to the unity behind it.

Unafraid of the "dark" side of life, you are interested in esoteric religion, everything mystical or occult, and so on. Sexuality and physical desires are encouraged and seen as spiritual. Money, power, and things of this world are O.K. too. The physical is ideal. Possessions.

Neptune in Scorpio

A born director and orchestrator of the moods and emotions of a group. A sharp sense of drama and a feeling for spiritual ideas and for art in general. Dreamy. Able to understand the public's mood and what is required to please. Could be deceptive.

Moon Sextile Neptune

You work with real imagination and understanding in areas of the mind that are the most personal or private -- depth psychology. You are like a midwife of the spirit, assisting at the birth of each individual going through a spiritual or re-birth process. You accept the natural process of birth, spiritual and physical, and have dedicated yourself to helping it along. You would make a great teacher in these areas.

Neptune Sextile Pluto

Pluto: Inner Change and Growth

Pluto is the planet of profound change, starting deep within us and moving toward the surface. It often touches upon the most sensitive psychological areas inside us. Once touched, we have no choice but to change and grow. The most sensitive of experiences, the times of greatest vulnerability, are times of complete identification with an experience, a person, or a thing. We know in these instants that we are looking at our self, what we are. The most personal of experiences is one of complete identification with a person, moment, or idea. Perhaps this is only possible for most of us when we look into our child's eyes, and then only infrequently. Love is not the experience here, but total identification. This is very sensitive stuff. To touch upon this material is to go through deep inner change and transformation -- inner alchemy. Identification and experiencing that life is our own creation and that, in fact, you are I and I am you. This experience breaks us down and humbles. When we touch upon this experience, we cannot but die to what we have been thinking and doing up to now. It reduces us to our most sensitive because -- in a flash -- we see or remember that it all is us, our life.

You tend to be radical when it comes to self-analysis, which means health care, food, physical well-being, and so on. Serving and caring for yourself and others are primary sources of inner growth and changes. You are sensitive to criticism.

Pluto in Virgo

Others may find you very intense and too personal. You are very direct and manage to get to the heart of most matters without thinking. Power struggles are not unknown to you, and you may work in politics or with authorities -- those older than you.

Sun Conjunction Pluto

A born psychologist. Able to understand and handle a crowd and the public in general. Devoted to children and the idea of future changes. Not much given to a misuse of personal power. Always this sense of vision and purpose. Intense. The long haul.

Moon Trine Pluto

Your ambition and drive is often at the expense of your inner self and sensitivities. You may find yourself ignoring signals that indicate a need for change, transformation, and vulnerability in general. Bursts of intense anger are possible.

Mars Semisquare Pluto

You are insightful, always darting straight to the heart of things and never shy about working with the most sensitive and vulnerable areas of the human psyche. You love new and different ways of self-discovery and transformation.

Uranus Conjunction Pluto

A searing vision that cuts through what passes for conventional religion. A vision of the endless process of life ever being born afresh. Great acceptance and faith in the natural process and next generation. Love of children and animals.

Neptune Sextile Pluto

You have strong family, business, or property ties which affect your public image and

goals. There may be tricky finances connected with your business or profession. Obligations involving women, research, or detecting are important in career.

Pluto Square Ascendant

Challenges and Abilities

Focus

These are areas of life where we show intense focus and activity. For better or worse, these qualities stand out and are obvious to all those who come to know us. They are very clear parts of our character.

Secrets have a short half-life around you, for you have them out in a wink of an eye. You are brilliant when it comes to insights into the mind, psychology, and motivation -- yours or others'. Your intensity is obvious, and some may prefer to keep their distance rather than subject themselves to your laser eye. Nothing is passed over without being turned inside and out. Your analytical powers are superb, and you enjoy finding new avenues of inner growth.

Uranus Conjunction Pluto 03°03'

You do a lot to fulfill the popular stereotype of the "genius," so obviously brilliant are some of the things you think and say. You have such an outpouring of insights that having a conversation with you can be a real experience. Your mind works like lightning. Words and thoughts sort of shoot out, illuminating whatever subject is at hand. You really do have very different ideas and ways of expressing them. Sex is, no doubt, also important.

Venus Conjunction Mars 07°46'

You come on strong and may tend to intimidate those around you. It's nothing you have done so much as something you are. You are not afraid of a good confrontation, and you seldom pull any punches. You would be great at research or any work that requires digging, searching,

investigating, and getting beneath the surface.

Sun Conjunction Pluto 09°02'

Challenges

Life can be challenging, and things are not always easy. The major challenges in a natal chart are where we can expect increased activity and personal involvement -- ready or not. These critical areas of life can be difficult, and the resulting confusion and possible obscuration often makes it hard for us to see and act with normal clarity. Therefore, when it comes to the following factors you may wish to exercise caution and extra patience.

You have strong family, business, or property ties which affect your public image and goals. There may be tricky finances connected with your business or profession. Obligations involving women, research, or detecting are important in career.

Pluto Square Ascendant 01°03'

You are most original when concentrating on areas of work and family where you feel secure. You are a private person and find all the pomp and circumstance of social life repressive and boring.

Uranus Square Ascendant 01°60'

Your love of family and home and lack of interest in external affairs (be they friends or work-related) needs to be noted and kept in balance.

Venus Opposition Midheaven 03°19'

You go against authority, clashing with it rather than finding a way to work with and learn from it. You end up taking an unplanned course of action that lacks any organization and seldom holds up for long. Taking the easy way out can be very painful. You come back to square one again and again.

Your free-form approach to conversations lacks responsibility and could result in confrontations with authorities. In other words, what you say could get you in trouble. At the very least, others find much of what you say and think impractical.

Mercury Opposition Saturn 05°47'

Talents and Abilities

Despite whatever problems we may have, there are areas of life where we have clear insight and real talent -- natural ability. When it comes to these matters, our judgment is sharp and we always manage to take charge. We have the knack. It may be as simple as the ability to work hard and accomplish things without something going wrong. An innate sense of the workings of these parts of life makes it easy for us to learn and accomplish things where they are concerned.

You work with real imagination and understanding in areas of the mind that are the most personal or private -- depth psychology. You are like a midwife of the spirit, assisting at the birth of each individual going through a spiritual or re-birth process. You accept the natural process of birth, spiritual and physical, and have dedicated yourself to helping it along. You would make a great teacher in these areas.

Your sense of the ideal springs to life whenever other people are involved. A born arranger of atmospheres, you enjoy working with groups of people. You are also very creative when it comes to your home and surroundings.

Moon Sextile Neptune 02°48'

You have natural psychological ability, in particular when working with the public. You can handle emotional and personal issues (vulnerable areas) where angels fear to tread. People sense this about you and trust you with sensitive matters, inner worries, and questions of personal identity. You have a real mission and a sense of purpose.

Moon Trine Pluto 04°13'

You are very fortunate in being able to grow and progress throughout your life without major difficulties. You can always find the resources you require at hand plus the necessary instruction in how to use them. An inner vision, coupled with the ability to see the "Big" picture, often finds you working as a go-between with others. You could even have a special gift for spanning the generation gap, bringing older and younger spirits together. A love of animals, children, older people, and the needy and downtrodden in general, is a lifelong trait.

You are very fortunate in being able to grow and progress throughout your life without major difficulties. You can always find the resources you require at hand plus the necessary instruction in how to use them. An inner vision, coupled with the ability to see the "Big"

picture, often finds you working as a go-between with others. You could even have a special gift for spanning the generation gap, bringing older and younger spirits together. A love of animals, children, older people, and the needy and downtrodden in general, is a lifelong trait.

Sun Trine Moon 04°49'

You are very original when it comes to home and surroundings -- the environment you build around you. This could also manifest in unusual ways of supporting yourself. Your mother may have been quite eccentric or your upbringing somehow different. When you have breakthroughs, they often come as insights into your immediate surroundings, home, and environment -- your support system in general. This could also manifest in your finding new and different ways to make a living. You may have new ideas about the past, history, and younger people, find it easy to create an unusual environment, and enjoy surrounding yourself with what is new and different.

Moon Trine Uranus 07°16'

You have a knack for always finding assistance in whatever career moves you decide to make. In fact, your ability to rally support makes a public career of one kind or another quite probable. Success is indicated in education, politics, or the law. You know how to attack and solve problems, whether personal or public. Chances are, your social skills mean that you are popular with almost everyone.

Landscape: Major Life Periods

What follows amounts to a brief overview of the first thirty years or so of your life -- a road map of the years to come. Since childhood, adolescence, and early adult life are so crucial to each of us, an attempt has been made to describe these formative years. Based on the gradual movement of the planet Saturn, this is one of the most tested of all astrological techniques. It is used by almost every professional astrologer as part of any personal consultation. Provided that your time of birth is more or less accurate, you will find this information both accurate and informative. Here is a general life overview, followed by a close-up on your current changes -- what is happening right now. First the overview:

Your Personal Background

Although your early years may be somewhat more difficult than average (say until the age of 14-15), you will more than make up for any late start by your outward reach and climb to success in your mid-teens. Puberty will bring a change of heart and direction aside from its expected effects. You will make very rapid progress in self-confidence and may well be a class or group leader in high school. Beyond that point, your career really takes hold. The age of 21-22 will find you coming to social and material prominence, and any career moves will build until roughly the age of 30. After this time, you should put more thought to consolidation and

be less outward. You will begin to turn inward, and the years until you are 37-38 should be spent looking toward security and strengthening your position.

Your Current Situation

Now for a close-up of recent years: while landscape was quite general, the dates given in this close-up should be much more precise. Life is composed of sections of time, each devoted to one kind of activity or another. We go along for a while in one direction until something changes within (or outside) us and we head off in a new course. Some of our earlier activities dry up and new ones spring up in their place. What follows is an analysis of the time period in which you find yourself now. Don't look here for a day-to-day account of life but rather to get a picture of this stretch of time, "these years."

Aug 25, 20051st Pass D> (Age 40 11m)
Mar 09, 20062nd Pass R< (Age 41 5m)
May 02, 20063rd Pass D> (Age 41 7m)

The dates above point to the end of a period of about seven years during which you may have been very inward and self-absorbed -- quiet, subjective years. Information that you have been examining and thinking about will now begin to take shape and prove useful to you. This next period is one of action and embarking on new projects. You will feel more and more confident and outgoing, a sense of confidence that grows stronger with each passing day. Things that may have been in suspended animation for many years will now precipitate and take on structure and shape. These next years are ones in which you should plan to work hard to bring out and give shape to the ideas you have pored over these last 6-7 years. You are beginning to really move forward now and can expect rewards to take an outward career, and social form within a few years. A growing self-confidence. In summary, from this time forward, expect a more confident, outgoing attitude, for you have brought to a close a time of inward examination and learning. A growing sense of direction and self-worth will find you reaching out and establishing yourself.

The Elements, Modalities and Angularity

Elements, modalities, and house quadrants. These are all techniques used by astrologers to gain a general picture of how a person measures up. How do your planets and houses total up? Which do you have in abundance, and which do you lack, if any? Those with high totals show what we can or must do in life. These are qualities we have. However, most people are more interested by what they lack or want -- their lowest totals. They tend to study their "wants,"

imitate, and even pretend to have them. The old adage is: we become what we want (or lack), while we do what we can (or have to do). Here are your totals:

You're concerned with preserving the status quo and are stable and methodical in your ways of going on. You resist change and may have trouble getting started, but once on the move are indomitable. You mistrust that which is new or untried.

Have Earth

You could have difficulty getting your ideas across to others, sometimes feeling inadequate in matters that require logic or the use of your mental powers. You may have doubts about those who talk too much and seem "long" on ideas.

Want Air

Very communicative, flexible, mental, and other-oriented. Perhaps you can be all things to all people, giving them what they require. Probably a smooth talker with a quick wit and ready tongue.

Have Mutable

Not a great starter, you may have trouble initiating things and getting them moving. You may need help from friends or others in learning how to be more aggressive and outgoing.

Want Cardinal

Your energies run effectively toward making yourself felt in the material, tangible outer world. You are an "action" person who gains the attention of others and seems to get things moving. The circumstances of your life suggest extroversion.

Have Angular

You are inclined to do things from outer necessity rather than for emotional or idealistic reasons. Your theories and mental activities may be fine, but you may lack heart or the fixedness (or the necessary time) to let things ripen.

Want Succedent

Your Burn Rate

We all change, but the question is: At what rate? Some of us tear through change after change, one phase following another, year after year, while others move at a more serene pace. Or, one area of our lives may be hectic and forever changing, while other areas are quite tranquil. Why do some people seem to live lifetimes within lifetimes? Here is an analysis of your particular rate of change or "burn rate," including the particular areas of your life (planets) where you can expect continued change and growth. Areas where there is a very low index of change (indicating clear and easy use of the qualities involved) will also be pointed out. If you have sometimes wondered about the areas of your life where the candles burn at both ends, here

are the details.

You have a high burn rate (index of change) and tend to run hot and fast. It is almost like having many lifetimes within this single one. Things are always fast and furious with you, and you seldom remain calm for long. Your thirst for experience and growth keeps you always on the move. You work through an enormous amount of change compared to an average person. In particular, the following qualities are areas where you have experienced and will continue to experience much change. These areas of life persist in presenting themselves to you, so you may already have become very experienced in them. On the other hand, they could be arenas in which you struggle but have not yet attained mastery.

A majority of planets in the FUTURE suggests that you tend to run ahead of the pack, taking changes and acting things out before they become accepted and a part of the status quo. Things happen to you that you come to understand over time.

Planets in High Focus

The mind, and all that is mental, will be the source of continued change and adjustment. Letters, writing, speaking, and all things having to do with communication and cognitive work assume great importance. Your mind tends to be engrossed with thoughts, ideas, and concepts and remains in almost constant flux. Mental learning is an area of preoccupation.

Mercury

Questions of attitude, approaches to problem-solving, and the methods for handling authorities and the law are in high focus and are indicated by a high burn rate regarding your career and making your way through life. Perhaps you will have many jobs or be forever going through changes and adjustments that affect your career. It could be difficult finding lasting success or prosperity, and the path to it may be areas where you have real experience and particular expertise.

Patterns: Your Inner and Outer Self

Here we are examining your basic attitude or approach to life, what is called by some the archetype or soul-type. If you know something about your particular soul-type, this can provide valuable information as to the general direction and purpose of your life. In particular, it is important to note the difference, if any, between our outer personality (the way we appear to others) and our real inner self; how are we, in fact, as people get to know us? Not all people are as they seem.

You are no secret. Outside or inside, there is not much difference. You are just as you appear.

Geo: Square Helio: Square

Your Soul Type

You are independent, confident, and more than likely more than a little self-centered. You love attention and somehow manage to gravitate to the center of almost any group or happening. Others accept you, for they sense you are a leader and admire your almost regal manner. Yet they may have to keep their distance, for as much as you love attention and the crowd, you are also fiercely protective of your independence, sense of freedom, and -- above all -- your privacy. There is a kind of contradiction here. When in the mood, you love to express yourself, entertain and perform for others, and enjoy being surrounded by an audience. You are very magnetic and dynamic. Others love to be with you. There is something about you that others can't seem to get enough of; yet for all your confidence, you tend to depend on others for advice and counsel. Your grasp of the moment is unquestioned. You're it, or at least always in the midst of it. Yet you find yourself needing the advice of someone who is not as involved, someone to give you directions from time to time. In a sense, you are all dressed up but are not sure where to go or where you are headed. And because of this, you depend on those around you for direction and guidance during the times when you lose sight of the bigger picture.

You are a very feeling person and can sense the drift of a situation without a lot of analysis. This immediate "hands-on" approach might be contrasted with one that is more deliberate and cerebral. You could be left with a bit of an inferiority complex when it comes to matters of education, philosophy, and conceptual ability. In a word, you revere this kind of stuff, not because it is natural to you but rather because it does not come easy for you. You have to work for it. There may be a tendency on your part to puff up your intellectual powers.

It is said that there are just two kinds of people in the world, those who are born to love and those who are born to be loved. You are the second type, one who is born to be loved and cared for by others. Don't feel bad about attracting attention in a group. People love to be with you and find you very easy to love. Everyone wants a piece of you, and this can result in your needing more space, a chance to be alone. Your type is not famous for being attentive to the needs of others or being very demonstrative in a love relationship. You are the immovable object that others find irresistible and sometimes selfish. You love to express yourself and are a born entertainer. You are very stubborn and have great stamina. You may tend to fear that others find you a little dense or too sense-oriented. You radiate energy and information and have to just accept the fact that people like to feel your warmth. Let them take care of you. You sit on the throne.

Square Type

The Key to your Inner Life

Each person has one or more key qualities. Here we are not referring to our appearance or personality, but rather to our inner nature, how we are when someone really gets to know us.

Your most essential quality has to do with the very real love and compassion you radiate. Your sense of values and sheer appreciation for life are communicated to all who come to know you. Beyond whatever external considerations may be present, you exude a contagious thankfulness and fondness for things and people. These inner, loving qualities are experienced as a very real good.

Venus

Your sense of direction and guidance are the key to understanding you at any in-depth level. You are a natural problem-solver, always managing to come up with the correct approach. There is an innate capacity to negotiate with the law and authorities, plus an ability to find your way (the correct way) when it comes to inner and spiritual matters. Others sense this gift, and accept guidance and council.

Jupiter

The Key to your Personality

Your sense of direction (handling a person or a problem) is perhaps the key element in your personality make-up. How you manage difficulties, find that diplomatic solution, or come up with the right approach all are built around your talent. Your outward charm and ability to be all things to all people is what is most central to your personality. This ability to solve problems, to counsel and always to put others at ease is the key to meeting and coming to know you.

Jupiter

The Personal Hot Spot

You tend to take everything with great intensesness. Your drive to get at the heart and truth of things is constantly invoked, and serves as a common theme in your life.

Pluto

Interface: Innermost qualities

This feature is based on an intricate analysis of the position of a particular planet in relation to the orbital planes of the other planets. The resulting series of crossings, or nodes, tells us something about the nature of our innermost inclinations (Inc) and disinclinations (Dis). These indicators are not to be considered at the level of our personality, but rather are deep-seated parts of our innermost character -- our internal biases. These pros and cons are not apt to change in the course of our lifetime.

You are a very forceful speaker and communicate with great enthusiasm. Words just flow

out and are always followed by an emotional impact that brings them home to your listeners. You have no trouble putting your feelings into words; in fact, you may have to exercise some control over your tongue, for you are quick to say things and everything you communicate packs a wallop. Things you say mean a lot. You have a great mental drive and lavish great energy on mental pursuits of all kinds. Ideas, words, books, and the like are pursued with great gusto.

Mercury Inc Mars

You place a high value on your dreams and ideals and don't consider them otherworldly or impossible. You experience the unity around you -- that which joins things together. There is a love of the sea and of whatever solves that which separates us. Mysticism, mythology, poetry, and music are natural. These are all known items to you. People who encounter you may sometimes feel deceived by your remarkable vision, which they enjoy when they are with you but find hard to maintain by themselves. They wish the world were like you say it is.

Venus Inc Neptune

You may lack coordination, in particular in relation to making career moves. Your emotions, led by your temper, can send you off in a direction that is anything but where you really want to go. There is a basic struggle between your feelings and your livelihood; therefore, it is important to find work that does not deny your feelings, or they will explode. Acting only on your feelings and doing "whatever you want" with no thought for a plan is also not helpful. Advice from a trusted friend is in order to help coordinate your job and your emotional life.

Mars Dis Jupiter

You hate a lack of clarity, especially when it comes to your feelings and emotions. This is a less than ideal world as far as you are concerned, and you are for making the best of it. Whatever dreams and ideals you may have had are somehow shut off from the day-to-day realities you face. You would rather ignore your dreams than be tortured by their remoteness. You are suspicious of pie-in-the-sky and have an abnormal fear of being deceived, in particular in matters of love and feelings. A sign of emotional tension.

Mars Dis Neptune

You have real vision and insight into the unity that ties this world together. Your brilliant imagination and enchanting manner transport all who meet you beyond the mundane and into the extraordinary regions where you spend a lot of your time. You are a seer, in the true sense of the word, and possess a waking experience of that part of us that is mystical and dreamlike. You find new ways to bring people together, to unify situations. Unusual music.

Uranus Inc Neptune

You place a high value on your dreams and ideals and don't consider them otherworldly or impossible. You experience the unity around you -- that which joins things together. There is a love of the sea and of whatever solves that which separates us. Mysticism, mythology, poetry, and music are natural. These are all known items to you. People who encounter you may sometimes feel deceived by your remarkable vision, which they enjoy when they are with you but find hard to maintain by themselves. They wish the world were like you say it is.

Major Transits Happening Now

Astrologers use the term "transits" to mean the positions of the major planets that are overhead (in the sky) right now and their relationship to our birth chart. Transits are very important indicators of the current situation in which we find ourselves. They can provide insight into what we are now going through. Here are the dates when the next major transits for the planets Jupiter, Saturn, Uranus, Neptune, and Pluto are exact in your chart. Some dates will have already passed and some are still to come. Remember, with these large planets transits don't just happen on the day when they are exact. They cover a wide span of days, weeks, months, and sometimes years, depending on which planet is involved.

In general, transits of Jupiter take from several days to a week or two to complete, while those of Saturn take from two weeks to a month to play themselves out. With the outer planets, the period of activity is even longer: transits of Uranus take about two months, Neptune three or four months, and Pluto takes about a year. Uranus, Neptune, and Pluto move so slowly that the complete transit experience may take a year or two to complete itself. So be prepared to work with these situations.

House Activity and Emphasis

The twelve houses of the horoscope, particularly when they are occupied by a planet, provide a clue to areas of special activity and use. Here is an analysis of house activity based on planet emphasis:

First House: Appearance, Approach

The first house has to do with how we appear or the way we come across, thus our appearance and personality. This is the essential stuff that bubbles up in us spontaneously and that is obvious to others as our trademark or activity. It is what makes us each so personally different. This house rules our personal self and everything about us that draws a reaction from our surroundings or others.

First House

Gemini is concerned with connections and communication of all kinds -- letters, wires, telephones, voice, thoughts, writing, and mental processes in general. Gemini is the gadfly, the communicator, the gossip of the zodiac. Searching conversations, scientific inquiry, research, and so on belong here. Gemini energy is unattached, independent, and inquisitive.

Gemini

Second House: Possessions, Reactions

The second house is concerned with how we respond to or field whatever impulses or unique and personal qualities we manifest via our first house. This is how we hold or "have" things (possessions, material goods, money, and the like). The second house always refers to how we secure ourselves, the kind of response we get from life and those around us.

Second House

Cancer is the mother of the zodiac, always making a home, protecting and providing for others. A sensitive sign where feelings and real experience count more than cold logic. It doesn't get any more physical and emotional than here. This sign has a sense of substance, a home base or foundation. Cancer energy is always limiting, bringing us down to Earth, grounding our every thought in experience, in substance.

Cancer

Third House: Inquiries, Communications

The third house is concerned with explorations, investigations, and inquiry and research of all kinds. It also rules connections, communications, wires, tubes -- anything that we can get through with our body, mind, voice, letters, what-have-you. It is here that we explore and search for the limits of our life, whatever we are working with at the moment. A very mental house, concerned with finding, furthering, peering, and all manner of questioning. Traditionally rules short journeys, siblings.

Third House

Cancer is the mother of the zodiac, always making a home, protecting and providing for others. A sensitive sign where feelings and real experience count more than cold logic. It doesn't get any more physical and emotional than here. This sign has a sense of substance, a home base or foundation. Cancer energy is always limiting, bringing us down to Earth, grounding our every thought in experience, in substance.

Cancer

A relentless drive to pursue knowledge, to search, research, and follow out leads and pointers. You are very motivated when it comes to communications of all forms -- phone, voice, letters, computers, and the like.

Mars in Third House

Fourth House: Home, Family, Security

The fourth house is where we send down roots, find our limits, and generally secure ourselves. It is the end of any searching we might have done in the third house. Here we find or end our search, settle down, and manage to get in possession of the whole situation. This is our home and the base from which we can work, feel, and experience. This is the root of our experience, the core or thick of it.

Fourth House

Leo energy is expressive, emotive, and concerned with awareness and a sense of pride and ownership. Here is always a sense of home base or confidence from which the aggressive and outgoing Leo energy operates. Often very artistic, and always theatrical and expressive, this sign is good for creativity and the arts. Warm and big-hearted, this sign belongs to love of animals, sports, children.

Leo

Your mind tends to settle on issues of security -- home, family, and such. Your thoughts have great substance and feeling. An interest in history, the past, and nostalgia may be lifelong.

Mercury in Fourth House

You love your roots, whether home and family, ancestors, or history in general. You are probably a collector and very discriminating in this area. You appreciate emotions and like to get a sense or feel for whatever is happening.

Venus in Fourth House

You are very independent when it comes to your own security and family. This could mean an unconventional-style home or furnishings, or a different approach to sentiment, nostalgia, and history.

Uranus in Fourth House

You may go through a lot of changes that affect your sense of security. Your home and family situation could be a focus for growth and real learning -- an area of great sensitivity and vulnerability.

Pluto in Fourth House

Fifth House: Expression, Creativity

The fifth house has to do with awareness, emotion (to move out), and expression (to press out). Here there is always a growing sense of self-confidence and even a pride of ownership, since we begin to recognize and own our experience. We know that we have had or are having an experience. All forms of expression and offspring are connected to this house -- children, animals, creative expression, and so on. A sense of direction and ownership takes hold at this point in our experience.

Fifth House

Virgo energy is analytical and precise, always separating what is worthwhile and worth supporting from that which is outmoded and of no further use. A mental sign, where thinking and examining are in high focus. Also, a different kind of mother, here an endless caring and worrying (fussing) about just about everything. Always compassionate and responsive, Virgo energy is service-oriented above all, often thinking and caring more about what others are doing and thinking than for self.

Virgo

You are very expressive and outgoing when it comes to your feelings and emotions -- you wear your heart on your sleeve. Creativity of all kinds is important to you -- music, drama, art, poetry. Also, animals and children play a large role.

Sun in Fifth House

Sixth House: Responsibility, Work, Health

The sixth house has to do with salvaging and preserving what is good and healthy in our experience. Here we separate the wheat from the chaff. We begin to care for ourselves and our experience and thus health, nutrition. The idea here is that we are able to analyze our experience and have thoughts about what is pure and what is not. The sixth house is an attempt to save the heart of an experience, one that already by that attempt is beginning to pass or not cohere.

Sixth House

Scorpio is the most famous sign. Intense, passionate, and very personal, Scorpio rushes past superficialities and right to the heart of any matter. A loyal friend but a fanatic foe, this sign does well in politics and all areas where someone who dares is rewarded. Often associated with sexual energy, perhaps due to its tendency to strip away veneer, laying bare anything that is there.

Scorpio

You are very imaginative when it comes to your health, the food you eat, and how you take care of yourself. Quick to get the picture, you may find yourself helping others see the benefits that proper care (mental, physical, and such) can bring.

Neptune in Sixth House

Seventh House: Relationships, Other People

The seventh house is the house of partnerships, relationships, social life, and all that carries us beyond our personal self into an awareness of other people, community, and the like. This includes spiritual awakening and the discovery that we are more than just our personality. Here we begin to respond to our personal needs (and those of others) for the first time. We can see what is going on and are committed to it; thus, marriage and yoga, or union, is indicated in this house.

Seventh House

Sagittarius is nothing if not direct, candid, and to the point. Sometimes harsh, this energy always is concerned with the absolute truth of the subject at hand. Associated with philosophy, religion, and all things that last, Sagittarius energy is always welcome in politics as well as social and community endeavors, where its basic fairness and evenhandedness is helpful.

Sagittarius

Eighth House: Business Savvy, Elimination

The eighth house, traditionally the house of death, is concerned with getting rid of excess parts of ourselves that we see we no longer need. Thus this house also covers initiation and any activities where we are transforming toward a more integral position, getting to the heart of things. The no-nonsense quality of the eighth house makes it good for business ventures since here we are stripping away the dross to reveal the truth or essence of the subject.

Eighth House

Capricorn is the business energy of the zodiac, for it is the very opposite of the emotional Cancer. Given to clear-headedness and practical insight and vision, this sign always takes a distanced perspective, a cool appraisal. Logical and painstaking, Capricorns love hard work and earned results. Money and things in general are very important.

Capricorn

Your keen business sense is never sharper than when you are working with or for others -- a group, corporation, and so on. You are great at finding excess and rooting it out, and your actions receive support from those around you. Initiating others.

Moon in Eighth House

Ninth House: Religions, Philosophy, Ideas

The ninth house covers long journeys and religion (the longest journey of all). Here is what remains of the purification that takes place in the eighth house -- the seed, or essence, of an entire cycle of experience. Religion comes from a Latin word that means to bind back, and thus refers to all things that last or endure, such as the truth. Essential ideas, philosophy, and all that

is the very heart of things belong here.

Ninth House

Capricorn is the business energy of the zodiac, for it is the very opposite of the emotional Cancer. Given to clear-headedness and practical insight and vision, this sign always takes a distanced perspective, a cool appraisal. Logical and painstaking, Capricorns love hard work and earned results. Money and things in general are very important.

Tenth House: Practical Vision, Vocation

The 10th house is a house of practical vision and clairvoyance, for here we can see clearly what is. Reputation and career are often connected to this house, since the areas where we can see with greatest clarity are those we most often can put to use to make a living. In summary, this house is where we have real vision and can see to do and work. Planets transiting this house may provide moments of insight and clear-seeing as well.

Tenth House

Aquarius, the sign of humanitarian goals and altruism. Always impartial and nonsectarian, Aquarian energy is communal (even global). The focus is on the goal, and the goal is always one that is for the many and not the few. Thus this sign is connected to far-seeing visions, world views, and group work of all kinds. This sign tends towards coolness, independence.

Aquarius

Your career, practical vision, and skills are of central importance to you. You are nothing if not organized and deliberate in this area of life. Your reputation and image are a source of concern, and you do everything you can to make them solid.

Eleventh House: Dreams & Visions, Community

The 11th house has to do with putting our visions and dreams to work. We have been on the mountain and had a vision (10th house). Here we take our vows never to forget what we have seen and to work hard to make these dreams into reality. Thus this house has always been connected with altruistic and humanitarian goals and trying to set them in motion. It is the house of friends and community, because when we are powered by a real insight or vision we share with all -- irrespective of differences.

Eleventh House

Pisces energy runs deep and toward the psychological -- whatever is beneath the surface. This sign is understanding, patient, and long-suffering. Pisces tend to absorb all the little barbs and digs coming from outside. They always have their mind on an inner goal, something more important. They are very forgiving and accepting -- giving of themselves for the sake of more important issues.

Twelfth House: Sacrifice, Psychology, Acceptance

The 12th house is about all that we go through in order to make our dreams into reality and manifest them in the world around us. It covers what we are willing to put up with, the sacrifices we will make in order to bring across what is really important. This is connected to prisons, institutions, betrayal, self-undoing, and the like, because it is here that we must choose to take some possible abuse for the sake of the message we are carrying, or blow it all away with a negative reaction.

Twelfth House

Taurus manages to respond, possess, and "have" just about everything possible. This is a nurturing and fertile sign in that any seed or impulse is cradled, bringing forth growth and development. Taurus is the way we "have" things, how we possess and acquire things. There is something gentle, regular, steadfast, and determined about Taurus. Always accepting, mothering, providing a base for... a matrix or womb where growth takes place.

Taurus

You could excel in a career that involves understanding and self-sacrifice. Psychology, counseling -- guiding others to be forgiving and accepting -- may be a special skill that you have. Work with mental patients, prison inmates, and the like is possible.
