## Introduction

Grant Lewi (1902 - 1951) is a legendary figure among twentieth century astrologers. He was a writer and editor for the two largest astrological magazines of the time. His two books, *Heaven Knows What* and *Astrology for the Millions*, were the first astrological books to become best sellers and even today, over fifty years later, they remain among the best introductions to the subject of astrology.

The astrological interpretations found in *Heaven Knows What* and *Astrology for the Millions* were unique, fresh, and simple. Llewellyn George, the prominent astrologer of the time, remarked that Lewi's interpretations must be intuitive because they were unlike any that had been written before him. Today these interpretations remain energetic and forceful and, though some references are now dated, Lewi's text still provides some of the clearest insights found anywhere in the literature of astrology.

Lewi was determined to make astrology more accessible to the average person, but while popularizing the subject he never watered it down or reduced it to the level found in "sun sign" astrology. Writing before computers were available, he made his books function as the computer, providing the reader with tables to generate their own charts or horoscopes and then linking his interpretations to the information found there. Lewi would have made good use of the computer, so much in his books seem to anticipate them. In his writing he tried to emulate the interpretation process by using a computerless version of artificial intelligence: the meaning of a planet in a sign doesn't stand alone but is modified by the other aspects found in your chart. Many of his comments depend on a combination of factors and for this reason you will sometimes find that he has something different to say about an aspect in your chart than he does for the same aspect in your friend's chart.

This report calculates your chart for you and then collects all of Lewi's comments strictly according to the astrological factors found there. The text contained here is valid even for those who don't know their time of birth - Lewi focused on those factors that are in effect throughout the birthday. The only exception to this is the case of the Moon which can move between 12 and 14 degrees in a day, so if the positions were calculated for noon then the Moon could be as much as 6 or 7 degrees different and possibly even change signs. If you don't know your time and the texts that involve the Moon seem unlikely, you may wish to compare reports done for the beginning and the end of the day.

At all times, Lewi's aim has been to show how astrology can be used as an aid in living a more satisfying and fulfilling life. Astrology offers indications and pointers - and sometimes insights - to situations that you find in life. It doesn't tell you what to do about them, but if it offers you a better understanding of the situation, then you are in a better position to decide for yourself what to do. To quote Grant Lewi:

*"It is not limitations that eats out the heart, but inaction, the knowledge of powers not used, the sense of having failed to develop to the utmost. The overcoming of fate is not the overcoming of*

limitations: that is impossible. It is the exercise of free will, the assertion of the full self, expanding to its utmost with the tools at hand, in the circumstances that are set. Astrology, through the interpretation of the horoscope, assists men to the achievement of their maximum by indicating to them the lines along which their will may be most progressively applied, the goals to be sought, and the individual means by which each one may arrive at the outermost boundaries of his world."

## Horoscope of Birth

Your horoscope of birth is the blueprint of your personality and character as indicated by the position of the Sun, the Moon and the eight planets on the date of your birth. This section is devoted to each of these members of the solar system.

The planets are the antennae and arms of the horoscope, of which the body and soul are the Sun and Moon. No planet will ever cause you to act counter to the testimony of the Sun and Moon in their combined influence on you. Remember this when you proceed with the following readings. All planetary vibration must be considered in light of the basic solar-lunar readings, for these are your character, your basic nature, which the planets will help or hinder but cannot materially change.

According to the sign position of your Sun, one planet will be more important than the others and should probably be read first. Your Sun is in Cancer and your dominant planet is the Moon. Not only the action of this ruling planet will be very important in your life, but also the attribute over which it rules. Thus Gemini, ruled by Mercury, lives a great deal in the senses; Libra, ruled by Venus, responds most readily to emotional stimuli; and so on. Study your ruler carefully.

Remember in all planetary readings that they work within the pattern of your solar-lunar nature; never against it. The synthesis of your horoscope from the following series of paragraphs to a working unit depends on your keeping this in mind, which will enable you to weld all the readings into a unified and significant whole.

### **Sun in Cancer and Moon in Sagittarius**

*(You belong to the positive or executive group.)*

Your idealism finds good practical expression. You have translated your very intimate type of ambition into large symbols and set yourself a high goal at which to aim. There's a wide streak of sentimentality in you. You are something of a hero-worshiper and usually select some individual as your ideal whom you strive to emulate and imitate. You believe in the conventional virtues so far as personal conduct is concerned - that is, you believe in them for other people. Where your own emotions come into play, you do pretty much as you please, feeling that your philosophy in some way justifies what would be mere fickleness or sensationalism in someone else. You have a wide view of things and through imagination, vision, and foresight, (which take into consideration the temper of your associates) you are able to organize your life on a long-range basis and stick to your plan of action. You want to be rich, not secure; famous, not popular; adored, not merely loved. You

are not one for halfway measures, and you despise low aims, petty ideals, insignificant ambitions. Earth may be your home, but heaven's your destination. You are philosophic, speculative, a bit mystical, and probably also superstitious, with some pet theory, belief, or symbol that stands for your luck and your success. In human relations you are warmhearted, affectionate, sensitive to the needs of others, genial and courteous. You have a forceful manner of speech and, despite your diplomacy, people know where you stand.

The beautiful has a great appeal for you, and no matter how much of a man of the world you may be, there's something of the poet, the aesthete, about you. Your philosophy and your intellect go deeper into things than do your emotions. You express yourself romantically and sentimentally, but your ardor gives the impression of being the product of an ideal rather than a spontaneous emotional expression. You are very sensitive and easily hurt, but you forgive readily and don't hold grudges, except when you have reason to suspect duplicity, when you are capable of never trusting that individual again.

Both men and women with this position are likely to "marry well."

### Sun

The Sun indicates the appearance you will present before the world and the psychological bias which will dominate your actions. What you seem, and why, are told in the reading for your Sun. In many ways the Sun is the dominant force in your horoscope and in your life. Other influences, especially that of the Moon, may modify the Sun's influence, but nothing will cause you to depart very far from the basic solar pattern. For this reason a whole literature and a whole business have grown up around Sun-sign astrology; and many people exist who think there is nothing more to the horoscope than knowing what "sign you were born in" and what the Sun in that sign means. This is a mistake, as you will discover when you have read the influence of the other bodies. But throughout your reading, keep in mind always the basic influence of the Sun, and remember that all other influences must be interpreted in terms of it, especially in so far as other influences play a visible role in your life. You may think, dream, imagine, hope to be a thousand things, according to your Moon and your other planets, but the Sun is what you are, and to be your best self in terms of your Sun is to cause your energies to work along the path in which they will have maximum help from planetary vibrations.

### Sun in Cancer

"We the people of the United States, in order to form a more perfect union, establish justice, insure domestic tranquillity, provide for the common defense, promote the general welfare, and secure the blessings of liberty for ourselves and our posterity, do ordain and establish this Constitution for the United States of America."

*Preamble to the Constitution of the United States,  
which as a nation was born in Cancer, July 4, 1776.*

The defensive, protective instincts dominate Cancer, whose life aims primarily at security, material and domestic. Capable of great self-sufficiency, or of being a clinging vine (male or female), the Cancer branch will take the turn as indicated by the roots, which must always be in

secure soil. If independence serves security, Cancer will be independent; if security depends on another, Cancer will cling. If security requires taking a chance, Cancer will take a chance - generally, if possible, with someone else's money, and once he has put his capital or someone else's into a venture, he watches it like a hawk. His sense of responsibility toward another's money, security, etc., is as deep as if they were his own; he pays his debts and expects others to do the same. It was Coolidge, Cancer President, whose solution to the war debts was of naive simplicity: "They hired the money, didn't they?" It is this simple, direct possessiveness toward what rightfully belongs to him that makes Cancer outstandingly successful in business, where he makes his fortune buying and selling, rather than in Wall Street. Cancer will gamble when he has a nest egg, not before, and then as a game rather than as a means of livelihood.

With livelihood (security), Cancer takes no chances, either in getting it or keeping it. It is therefore tops as a home-making sign; the maternal-paternal instinct is powerful; and the Cancer, male or female, will go to great lengths to protect, defend and improve his home, mate and children. If Cancer remains unmarried, it is because protectiveness has turned somehow into fear or selfishness; or because he feels that in some way his security is best served alone. Cancer protects himself, as well as his possessions, and may protect himself from the chances of emotional hurt by withdrawing into himself and making his security there, alone. This is a pitiable sight, because Cancer really needs a home and should have children, and few persons give the effect of incompleteness more than the introverted Cancerian who has no one to lavish his protectiveness on but himself. For in its complete development, the Cancer protectiveness becomes encompassing love that fills all its world, and warms and comforts those who are lucky enough to live in the sphere of its radiations.

Following are the aspects to your Sun. In a general way, the trines and sextiles to your Sun make ease, contentment, happiness, luck; while squares and oppositions give you energy, drive, success, ambition. Conjunctions bring both energy and luck, and are translatable in terms of whether the Sun receives squares or trines, along with the conjunction. Similarly, squares and trines to the Sun together bring success through work and perseverance, and luck develops in proportion to the work done and the effort extended.

### **Sun Square Mars    Orb: 04°00'**

Energy is the keynote of your nature. You have a sort of quivering intensity. Your energies are just as strong but your goal is less well defined, and you tend to spend your energies in nerves and in emotional and sensational matters. Your passional nature in any case is strong - love, anger, hate, fear: all the personal passions can take strong hold of you and, unless with a powerful will, can take hold pretty destructively. You can fly into rages, become absorbed in love, or give yourself up to hating with a whole-heartedness that is in many ways admirable but which, at the same time, absorbs too much of you. Your approach to things, facts, and people is strictly personal - you have little capacity for detachment and objectivity, and your outlook depends entirely on the state of your emotions, on the way people treat you, and on the status of your private life at the time. Thus you are capable of being a little petty when your feelings are hurt or you are aggrieved or injured; you don't take a broad view of these things, and you are capable of being vindictive and revengeful, of holding grudges and "getting even." Mars is the great get-evener, and one way or another you'll settle your score with anyone who has offended you.

In a man's horoscope, you are a fighter going through life with a chip on your shoulder and a pretty dangerous fellow to attack. You'll fight like a cornered bull and very often win.

In a woman's horoscope the quarrelsomeness is not so great, though under the surface calm there's a boiling sea, and it indicates likelihood of emotional psychic involvement through the father and some ill health too, or difficulty with, the husband. You rule your home - and not always by subtlety either. You have a way of making men toe the mark which they generally seem to like.

**Sun Sextile Uranus    Orb: 04°03'**

One of the indexes of long life, a strong physical heredity, and vitality. In addition to these physical qualities, you have a progressive mental outlook, strongly tinged with originality, and any plans that you organize will be pushed through with a certain dash and comprehension of total results that knits the parts together strongly. Organization, either of undertakings or of knowledge, is your strong point. You see things in the large rather than the particular. Your originality is not tinged with the bizarre, but has a wholesome practical quality about it. You are a very expansive person, looking at things in the large. You'll indulge in large independent ventures which will succeed or fail according to the other indications of the horoscope. You always build on the grand scale, and in the grand manner, for a certain magnanimity of approach and magnificence of outlook characterizes you.

**Sun Trine Neptune    Orb: 03°47'**

Your emotional and intellectual sides are nicely blended and give you a good deal of quiet charm and magnetism. Your intuitions are strong, and your critical faculties are aided by innate good taste. You are likely to have the wish to create artistically, but this aspect alone will not bring the power, though if other aspects to the Sun, Moon, Venus, and Mercury show creative powers, this will materially aid their expression and help to bring recognition. You have in any case a genuine appreciation for beauty, poetry, and music and will be found among the patrons of art galleries, operas, concerts, and the theater. This aspect also supports the health and aids the general material welfare.

**Sun Sextile Pluto    Orb: 06°50'**

Your desire to live life to the fullest helps you to learn easily and to make any changes necessary to achieve your ends, which are likely to bring advancement both to you and those around you. Your magnetism helps to attract the people and circumstances that you need to succeed, building your self-confidence and ensuring that you will make a personal mark on everything you touch or do. Your desire is to make an impression through your profession, which should benefit from your strong leadership abilities. You can become a bridge-builder, unifying others in an effort to make substantial changes in their environment.

**Moon**

While the Sun's position by sign determines what motives and urges dominate your life as it meets the naked eye, the sign position of the Moon tells the desire of your heart which may or may

not be expressed or realized in your life. When you "know what you mean but you can't say it," it is your Moon that knows it and your Sun that can't say it. "Thoughts that do often lie too deep for tears" are the thoughts of your Moon's nature. The wordless ecstasy, the mute sorrow, the secret dream, the esoteric picture of yourself that you can't get across to the world, or which the world doesn't comprehend or value - these are the products of the Moon in your horoscope. When you are misunderstood, it is your Moon nature, expressed imperfectly through the Sun sign, that you feel is betrayed. When you know what you ought to do, but can't find the right way to do it, it is your Moon that knows and your Sun that refuses to react in harmony. Also, when you "don't know why I said that," it was your Moon expressing despite your Sun (if you are innerly satisfied with the involuntary speech), or the Sun expressing against the will of the Moon (if you are displeased with what has slipped out). Things you know without thought - intuitions, hunches, instincts - are the products of the Moon. Modes of expression that you feel are truly your deepest self belong to the Moon: art, letters, creative work of any kind; sometimes love; sometimes business. Whatever you feel is most deeply yourself, whether or not you are able to do anything about it in the outer world, is the product of your Moon and of the sign your Moon occupies at birth.

### **Moon in Sagittarius**

Whatever mundane tasks your life may be occupied with, your spirit will range the earth and the universe, adventuring in the high hills and among the stars themselves. And to whatever task you bring your talents, you will touch it with a universality of approach; for the effort of your soul is to identify itself with large and broad concepts, and you will do it from whatever base your feet of clay must rest in. You are acutely aware of the limitations of the flesh, of the height of your desires, and of the "wide gulf that exists between intention and performance." In its worst form you will dedicate your life to making the paving bricks of hell: good intentions; and get no further. You always "mean well," and when you don't succeed, it is because your goal has been too lofty. "Not failure, but low aim is crime": no one understands this better than you. When you also understand that setting an unattainable goal is one of the means of escaping responsibility, you will be on the highroad to self-knowledge and therefore success. You must make your goal high, but possible of achievement; and you must learn to gear your methods to the tools that you can lay your hands on. Your soaring spirit is all too likely to ignore realities, to consider itself above good and evil, above the dust of earthly competition, secure in the mansions of the blessed to which you don't have to earn the key. Or you can go to the other extreme, envision high things, and so despair of achievement. You must take your picture of yourself as a broad and deep person, and paint it in earthly oils on a practical canvas. When you have learned the technique of life-as-it-is, you will be able to make your image of yourself stand forth in the light and color of success for all to see as clearly as you see it yourself.

Following are the aspects to your Moon. Look to the trines and sextiles to give you charm and clear-thinking; and to the squares and oppositions to provide you with concentration and driving force.

### **Moon Trine Jupiter    Orb: 08°23'**

You are idealistic, humanitarian, and expansive in your outlook, animated by genuine charity, and probably in a position to make it practical. You are cheerful, optimistic, good-humored, and

tactful. Courtesy is innate in you - one of nature's gentlefolk. You have excellent family connections especially on your mother's side, and probably some financial help from them in gifts or legacies. Necessity has never taught you to be careful of money, which you more or less take for granted. If put to it, your earning powers are good, for friends put you in the way of earning. Character is your strong point: you have a keen sense of right and wrong. Your ideas run along conventional lines; you belong to the conservative, right-wing, pillar-of-society group, believing in noblesse oblige rather than in socialism. You are devotional and probably religious in an orthodox sense, but the pillar of your religion is the god in you - that is, character - rather than metaphysics and dogma.

#### **Moon Trine Saturn    Orb: 06°53'**

Character is your strong point: you have a keen sense of right and wrong. Your ideas run along conventional lines; you belong to the conservative, right-wing, pillar-of-society group, believing in noblesse oblige rather than in socialism. You incline to be serious, sober, a trifle proud and reserved, and maybe a little forbidding. Life is real and life is earnest to you, and you take yourself rather seriously. You inherit your mental traits directly from your mother, resembling her and her side of the family in your internal make-up if not in your appearance. Duty is important to you; you will never shirk a job and are capable of considerable self-sacrifice if you think your duty requires it. You are able to achieve this without self-pity, taking certain obligations for granted as your lot in life and approaching them with sobriety and philosophy. Concentrative powers are not strongly marked, and you have some tendency merely to accept what comes in the way of duty, without going out and creating opportunities for yourself. You lack aggression and that eternal tension that pushes men and women to the heights. Relaxation and contentment are your two worst enemies, for although they keep you from the blows of the world and allow you to maintain inner poise and calm, they also keep you from getting too far ahead. If you aren't contented you are likely to go on being discontented for a long time without doing anything about it. Control the restlessness of your body and put some restlessness into your mind, your spirit. What you need to do is work up steam in the boiler so that the engine can get places.

#### **Moon Square Uranus    Orb: 02°04'**

You have had a high temper in your day, and if you've controlled it the credit goes to your good sense. You are rebellious, headstrong, abrupt in speech, quick on the draw - a sort of hair-trigger personality, full of fire and dash that need the control of a vigorous intellect. This is one of the marks of the advanced thinker, the Bohemian who is a law unto himself and must make a conscious effort to get in line with society. You are on the side of the underdog, the downtrodden, the underprivileged and believe in some form of social control where inequalities may be ironed out. A great individualist, you none the less believe that society has duties to its members, that their individuality may be able to thrive the better. You are ardent in your loves, idealistic and impulsive and capable of deep loyalties through which, however, you can see the faults of the beloved - and say so in no uncertain terms. Tact is something you have to learn, for your uncompromising truthfulness and honesty make tact seem wasted time to you. You are sensitive of the feelings of others, and once your high-spiritedness is reined you are the most sympathetic and understanding of friends.

**Moon Square Pluto Orb: 00°43'**

The important lessons in your life will be learned through your relationships. Men, the mother-figure will shape your reactions to all women. Women, you base your conception of your own femininity and nurturing abilities on the feedback you received from your mother. You tend to hold on to the past and act on your early conditioning until you realize how your subconscious reactions and motivations hold you back. You may feel you need freedom, thus avoiding close emotional relationships, when what you really need is to take a direct and personal responsibility for the direction of your life and the satisfaction of your emotional needs. Compromise is one of the key lessons of your life.

**Mercury**

Mercury is the sense-impression antennae of your horoscope. His position by sign indicates your reactions to sights, sounds, odors, tastes and touch impressions, affording a key to the attitude you have toward the physical world around you. Mercury is the messenger through which your physical body and brain (the Sun) and your inner nature (the Moon) are kept in contact with the outer world, which will appear to you according to the index of Mercury's position by sign in the horoscope.

**Mercury in Cancer**

What you hear, smell, taste, feel and see are of intimate and close concern to you. You are sensitive to every breath of air; you take it to your heart and cherish your reaction to it. The smell of the garbage truck is a personal affront to your nostrils, while the rose was created exclusively to delight the same. Loud noises persecute you, and you tend to think they were made for that purpose; while music is art's personal gift to you alone. You adopt the beauty of the landscape as if no one ever looked on it with true worship before. This personalizing of sense impressions can make you an awful fuss-budget, and also a bore if you insist on telling everyone how much you love, or hate, everything. On the other hand, the sensitiveness of your reactions and the intimacy with which you regard them make you capable of creative power, for art is only the personalized sense impressions of the artist, absorbed into the total personality and given forth in form. Add a point of view to your tendency to gush, develop a philosophy of beauty to give weight to your natural appreciation; learn to make sense impressions your own, and then release them into a significance larger than personal, and you have all the ingredients to make you a master in one of the arts.

**Mercury Sextile Venus Orb: 05°31'**

Idealism is manifest, and also a leaning to the arts, either on the creative or the appreciative side. With your Sun square Mars these tendencies may become creative activity. You may have friends among clever and intellectual people. You may marry someone from this group, for your affections are much bound up in your opinion of the loved one's mentality. You have a good deal of charm of manner, wit, and gayety to your speech, and probably have a very pleasant speaking (and perhaps also singing) voice. You don't shout even when you're angry, and you have a persuasive manner that wins people over. This is therefore good for salesmanship or the professions where

personal contacts are of paramount importance.

**Mercury Square Saturn    Orb: 00°02'**

You are liable to fits of depression, for your deep and subtle mind feels the woes of the world, and your own woes, very keenly. You are sensitive in a peculiarly brooding sort of way, not striking back when hurt, but nursing your grief and feeling sorry for yourself. You have a profound mind. Shallowness, stupidity, and deceit throw you off balance - though you yourself are capable of subtleties that others may think deceit. But knowing your purposes you can justify yourself with a sort of pragmatic philosophy - the ends justify the means. You are selfish, and capable of what is known in the divorce courts as "mental cruelty". You are a prober and a pryer and can get inside people even when they try to keep you out - this is a detective-like position. You are a subtle opponent in argument, having facts and figures at your command, and there's nothing flimsy about the logical structure you build. You thus make a good lawyer and a just, if stern, judge.

**Mercury Sextile Uranus    Orb: 09°00'**

You are quick, inventive, and broad-minded and have advanced views and ideas which you are able to make practically workable and of which you are able to convince the world. You are very likely to be a leader of thought and opinion in whatever sphere of activity you move.

**Mercury Trine Neptune    Orb: 09°15'**

This aids intuition and reasoning powers; and with other indications of creative and concentrative gifts lends an inspirational quality to the work. If no creative power is shown this aspect is unimportant, giving balance to the mind, glibness and facility to the speech, and lending charm to the voice. You have a kind of detached and abstract viewpoint on knowledge, loving it for its own sake. You are thus anxious to satisfy your intellectual curiosity even with odds and ends of information that you may never use. It helps the memory and makes you a good story teller, for you don't forget much, and something is always reminding you.

**Mercury Sextile Pluto    Orb: 06°13'**

You are fascinated by the enigmatic or bizarre, and your thinking is geared to gaining a deep understanding of the mysteries of life. Because of this, you are a natural researcher and student of the occult, the sciences, psychology and astrology. You aren't satisfied by the dogmas or theories that others are content with; your search is for a personal truth, a notion of your place in the cosmos. Although you are secretive by nature, there is nothing that gives you more pleasure than digging into other people's secrets. Your determination helps you to learn a subject in considerable depth or to get to the bottom of neighborhood gossip. You have to exert yourself to develop your mental resources, since you are apt to coast along, learning only what comes easiest. Concentration and discipline should be cultivated. Once they have been developed, you can use your powers of persuasion to lead others gently.

**Venus**

Venus is the emotional antenna of your horoscope. Through Venus, impressions come to you from the outer world because of which you feel and react emotionally. The position of Venus by sign at the time of your birth gives the key to your attitude toward these emotional experiences. As Mercury is the messenger linking sense impressions (sight, smell, etc.) to the basic nature of your Sun and Moon, so Venus is the messenger linking emotional impressions.

### **Venus in Virgo**

You relate emotional experience to a well organized code of conduct. You have strong family feeling and generally have genuine affection for your relatives. Your belief in the proprieties is so strong that you just don't have emotions that would involve their violation. Your impulses are usually strictly proper; if you stray from the beaten track, it is because you have convinced yourself that it is all right: you satisfy your conscience before the transgression, and rarely after. You substitute self-justification for remorse. Small niceties are emotionally important to you, and if you're not careful, you will substitute the sentimentalities of love for love itself. The proprieties as you conceive them stand guard over your emotional reactions; your sense of good taste is your emotional censor, and will keep you from many unconventionalities of those less sure of the right thing. This need not detract from the warmth of your nature, provided you don't let the tail wag the dog. Remember that the proprieties were made to serve a purpose, and that before there can be an emotional code there must be emotions. To have proprieties for their own sake is like having a general and no army.

### **Venus Sextile Mars Orb: 07°26'**

Strong and magnetic personality with a large amount of sex appeal of the more desirable sort, intense without being erratic; and emotionally reliable. You are likely to marry well so far as money is concerned, and also to have good earning powers of your own if you should need them. You spend freely especially in the pursuit of pleasure or the purchase of finery. You profit materially through your parents and probably will have some legacy from them or from someone else. Money is important to you. You are a materialist, and your ideals have a touch of earth in them. You are ardent rather than romantic though if other positions show romanticism this will lend vitality and realism to what might otherwise be a nebulous ideology. You will never want for sweethearts, and you'll be popular always, a social leader gathering people around you - and loving it!

### **Mars**

Mars is the energy principle in the horoscope. His position by sign indicates the channels into which energy will naturally flow, and the uses to which energy will most easily be directed. It is the planet through which the activities of the Sun and the desires of the Moon express in action - through which your body and your mind react to the sense impressions of Mercury and the emotional impressions of Venus.

### **Mars in Libra**

Your social urges are powerful - sometimes too powerful for your own good. You are

emotionally impressionable-your energies flow out to others and carom back to you with the added magnetism of other people, good or bad. You are sensitive to what you call love, and one way or another will have a lot of it in your life. You seem to sense instinctively that you are too impressionable, and in an effort to seem more independent than you are, will quarrel unnecessarily with those who impress you most forcibly - it is your defense against succumbing to them utterly. You must string for true cooperativeness of spirit, instead of being alternately as meek as a lamb and as mad as a hornet. Your energies and your emotions are always working together or against each other: your emotions express energetically and physically, and your energies run wild through emotional channels. You require detachment of spirit, objectivity of approach to other people, and moderation in the social and love instincts which tend to run away with you, upset your life and destroy your peace. Learn to accept other people more easily, to achieve true union with others and to fight down all extremes of human relations. Enmity and anger disturb the ego centers in you more than in most people; to be your best self requires harmony, and to achieve true harmony, you must learn that living with others is a two-way business and is not helped either by complete self-surrender or complete self-assertion.

### **Jupiter**

Jupiter is the feeler you have out in the world for opportunity. Through it the chances of a lifetime are passed along for consideration according to the basic nature of Sun and Moon. Jupiter's sign position indicates the places in which you will look for opportunity, the uses to which you wish to put it, and the capacity you have to react to and profit by it. Jupiter is ordinarily, and erroneously, called the Planet of Luck. It is "luck" in so far as it is the index of opportunity; but your luck depends less on what comes to you (Jupiter) than on what you do with it (the total personality). Opportunity appeals to you along lines laid down by your Jupiter.

### **Jupiter in Leo**

Opportunity appeals to you most when it includes a chance to exhibit your special virtues and abilities. No obscure job for you, no matter how much money there is in it. You'll pass it up in favor of the worse-paid job that gives more publicity. You can be a prodigious worker for little pay if you think you're appreciated - and you'll sulk and loaf if you aren't. The stage lures you; if you don't actually become a professional actor, you'll make a stage of your life and act upon it to win approval for the traits that are most important to you. Financial matters come second, unless you happen to relate self-justification to money, in which case you become a prodigious earner and spender. When you save money at all, it is to spend it later along ego-satisfying lines. You will always see the main chance on a road to a high hill on which you can stand triumphant for all to see, and will exert yourself best when you are best satisfied with the effect you are making on others.

### **Jupiter Trine Saturn    Orb: 01°29'**

You have in this aspect the best possible insurance against want and poverty for no matter how bad things may be, you always seem to get what you need. When everyone else is broke you can fish a dollar out of acme place. In a similar way, when you're broke, someone or some thing will come to your rescue. Even in an otherwise weak horoscope this aspect is so strong that it takes the edge from the worst cuts of life, holding up your head and your fortunes, and giving you, in varying

degrees, dignity and security which by careful and conservative expenditures you can make into wealth. You are an excellent manager of funds and can stretch a dollar to the limit without being penurious or petty. You simply know how to get your money's worth, and, being utterly fair and honorable, are just as willing to give fair value when you're on the selling end. You won't fleece others, and you won't be fleeced yourself. You can deal with large numbers of people and, having an eminent sense of justice in abstract as well as practical matters, you make a fine judge, minister, social worker, or executive. Whether you are prominent and powerful or quiet and reserved, your character wins you respect and a certain prestige and authority in whatever sphere you move. This is an aspect of maturity and may not be felt before the thirtieth year in any except the security sense. Under it you will develop steadily and forcefully as you grow older and in middle and later life feel the stability that you derive from these two most powerful of the planets.

### **Saturn**

Saturn indicates the direction that will be taken in life by the self-preservative principle which, in its highest manifestation, ceases to be purely defensive and becomes ambitious and aspirational. Your defense, or attack, against the world is shown by the sign position of Saturn in the horoscope of birth.

### **Saturn in Aries**

Your defense mechanism is directed toward self-defense and self-justification. The problems of living constitute to you a direct frontal attack of the world on your own personality, and the vindication of this steals the show from concerns of material progress and security. In its worst form this makes for narrowness, self-centeredness, touchiness, up to and including delusions of persecution. All the forces of your nature unite to defend the ego, which imagines itself badly used and needful of the maximum protection. From this can arise an almost unbelievable capacity to misunderstand others and a sort of chip-on-the-shoulder attitude which defies others to understand you. Carried upward and onward and broadened into spheres of usefulness, this makes you deeply desirous of self-betterment, capable of long, arduous mental work by which you succeed in making yourself the sort of person who will not require defending, but whose genuine traits will be the best defense against the world's attack. Not usually accompanied by introspection in any marked degree, this position, developed on its best side, makes you an aware, alert, profound personality. You eliminate the need for defending yourself by becoming an effective person when you have learned what every good general knows: that the best defense is an attack - and when you have marshaled your forces to attack life, instead of following your natural inclination to draw them around in a bristling ring of defiance.

### **Uranus**

Uranus in a general way relates to the neuro-mentality, creative originality or individuality, and his position by sign in the horoscope tells the direction along which you will seek to express your most characteristic self in creative and original effort. With Uranus in the same sign with Venus, there is unusual reaction to emotional experience, highly idealistic though sensual, original ideas of love and human relations.

### Uranus in Virgo

Your originality is most likely to assert itself along lines of organization, routine, or social welfare. If you work along your most characteristic lines, it will be to make some contribution to social or business systems. You can be an efficiency expert in the service of capitalist industry and make your genius valuable along that line. Or your desire to serve may take a broader and more humanitarian form, and you may become a leader of social thought, applying your systematic genius to large problems of labor and social welfare. Your most characteristic expression will be found in connection with work, its methods and its efficiency; or in connection with social service and progress. You are more likely than not to be on the side of social change aiming at division of labor and the general good of society, and probably feel at home with the changes and even turbulence.

### Uranus Sextile Neptune Orb: 00°16'

This aspect occurs very seldom and when it does, amounts to a world condition and requires rather special factors in the individual horoscopes to make it show forth. In general, it is a supporting aspect of material benefit, helping to improve a good horoscope and lending some support even to a bad one. It inclines to a practical interest in the occult. It sharpens the perceptions. There is danger of mental confusion through occult studies. You have an inventive and unconventional nature. President Franklin D. Roosevelt is representative of the race of giants which this aspect is capable of producing.

### Uranus Conjunct Pluto Orb: 02°47'

You will bring about important changes in your immediate surroundings or in the world at large. Depending on other aspects within the horoscope, this revolutionary spirit will either bring good to more people or will hurl them into turmoil. You can be difficult to live with, because your convictions are so strong that you don't like to listen to the opinions and advice of others.

### Neptune

Neptune relates to the deepest wells of the subconscious, inherited mentality and spirituality, indicating what you take deeply for granted in life.

### Neptune in Scorpio

The people and nations of the world are aware of the awesome, death-dealing possibilities of nuclear war. Atomic-powered submarines in the depths of the seas play their role in the struggle for power. Those born under this influence want to plumb the secrets of the Universe. The mystery of life and death is theirs to fathom. They are enthralled by occult studies, chemistry, invention. Neptune in this position intensifies the emotional nature. There is a tendency to be secretive and mystical. Gain through inheritance is possible, as well as financial ties with others; partnership, and marriage. There is a great possibility of possessing marked extra-sensory perception. Caution must be exercised regarding drugs and strong beverages, and dabbling in spiritualism. The sex instincts must be channeled in the right direction since the craving for sensation is very strong. You have

recuperative powers and a desire for reforms.

### **Neptune Sextile Pluto Orb: 03°03'**

The ideas that were instilled in you by your parents, church and society will undergo changes throughout your life until your religious and philosophical views are distinctly your own. This type of creative adaptability makes you able to forgo selfish concerns and direct your efforts toward the betterment of all. Artistic and/or psychic talents are possible.

### **Pluto**

Pluto relates to the ability to let go of things, to get rid of irrelevant prejudices and outdated habit patterns. It relates to subconscious feelings, inner urges and repressed emotions. A strong Pluto gives the ability to see the hidden side of life, and thus bestows power on the native - power which can be used for good or ill. In the same sign as Venus, Pluto gives a strong love nature, with a tendency to be possessive and self-indulgent.

### **Pluto in Virgo**

Your ability to bring order out of chaos is your strongest talent, and it allows you to find ultimate meaning in conditions and ideas which others consider hopeless. Your approach is initially intellectual - your curiosity spurs you on to gain as much knowledge as possible - but your main concern is the application of this knowledge. Ideas have value only insofar as they can be used to improve the quality of life. Your forte is the development of a concept, its practical application and its assimilation into everyday affairs.

## Current Transits

The current transits are calculated exactly for the date shown. Lewi wrote text only for the aspects that he considered to be the most significant and only those are shown in this report. The dates shown only represent the times when the aspect is exact; its influence is felt for weeks, months, and sometimes even years around this time. A planet will often make the same aspect several times in one year before it leaves that area of the zodiac and moves on. This is due to the planet appearing to go backward or retrograde for a period of time and crossing and recrossing the aspect point. When this happens the effect of the aspect can be spread out over a considerable time and in this report the aspect and text will be printed for each time it becomes exact, although this series of aspects represents only one pass through this phase of its cycle. Remember that each transiting aspect is part of its over-all cycle and indicates a change of direction as well as an event. The cycle for a planet is the time it takes that planet to travel the entire 360° of the zodiac, beginning at the point where the planet is found at birth (the conjunction point), moving to the 90° point which Lewi calls the "lower square", then moving to the opposition or 180° point. Then it begins to move back towards the starting point, at the 270° point, or 90° away from the starting point, the planet is at its "upper square", and then it returns to the conjunction point where a new cycle is begun. Lewi will occasionally refer to these points in his text by name. In general all transits, whether of a planet to its own place or of one planet to another, mark cycles of growth beginning at the conjunction point, growing through the first square, fully grown at the opposition point, beginning to recede at the second or upper square, and finally starting a new cycle as it reaches the conjunction point again.

How long any aspect will be in effect is determined by the speed of the planet making the aspect (the first planet, i.e. Mars in Mars Opposite Sun). One Mars cycle is about two or two and one-half years and so a Mars aspect will last about 20 to 30 days. Jupiter takes about 12 years for its cycle and so its aspects could last around 4 months, while Saturn with a 29 year cycle will last 9 months or even more if it turns retrograde. Uranus, Neptune, and Pluto are all long range aspects and usually represent a time of 2 or more years. While Saturn and the outer planets indicate long range influences in your life, Mars aspects will identify important months and Jupiter will identify important years. Not every occurrence of these will be of striking importance. But within a larger Saturn cycle or Uranus period of great importance, these briefer influences will be found to act as the second or minute hand of the clock of destiny, as Saturn, or Uranus, or both, act as the hour hand.

### **Jan 26, 2010 - Mars Conjunct Jupiter**

Opportunities abound, and your energies are up to them. Optimism runs high, and you can be made to color, and perhaps prophesy, the life for a long time. Work is abundant and gratifying; you

are popular and lucky. Be careful not to waste opportunities through trying to do too much at once; don't spend too much money, either, but make a point of saving. This ought to be a period of good income, which tends to make you openhanded and generous, perhaps to a fault. Keep your eyes and ears open; some of the best forward pushes of your life will come in these periods when circumstances combine to give you the rewards of work done in the past and to open up new doors for the future.

**Apr 6, 2010 - Jupiter Opposite Pluto**

This is a meeting of the Mentor and Transformation principles - perhaps a collision. Jupiter can inflate optimism to a bursting point. You are closer to walking on water - or at least trying - than ever before. You are also closer to the meaning of death. Take care you don't seek out death or become overly controlling of your destiny. This is a time to let things unfold somewhat at a distance. Jupiter is opportunity, and chances will come to you during this transit. This is a great time for study. You will have powers of concentration; use them to reach deeply into the ante-chamber of your soul. You will seek out knowledge above and beyond the call of duty of the class curriculum and ally yourself with people and books that will transform your attitudes forever.

**Apr 9, 2010 - Jupiter Square Moon**

These are periods of physical and mental excess, generally resulting in fatigue and a necessity to take time off and rest. Self-indulgence wears you out and requires a holiday. This is a good time for a vacation. If you can afford to relax (and you really can't afford not to), you can enjoy life here. Be careful of excesses with money and emotions, protect your diet. The pleasures of food and drink are very alluring and make plenty of trouble if indulged in.

**Jun 19, 2010 - Mars Conjunct Venus**

Heightened emotions make romance, which is favored if you keep it within the bounds of reason and convention. Impulsive acts, with or without a future, are frequently found in these recurrent periods. Glamour surrounds your approach to life; you are susceptible to the opposite sex and they to you. This transit frequently indicates the time of marriage within the period of a longer transit that favors it. If the era of romance is past, this indicates an active and on the whole satisfactory social period; business progress; extravagance with money; a sudden urge to go places and do things - and perhaps a chafing at the marital bit which should not be taken too seriously. Energies work through emotions and passions, which in turn work overtime and should be gently

disciplined though not entirely submerged. Often, for obvious reasons, this transit indicates the conception of children, especially if it occurs while Mars is conjunct your sun or conjunct your Mars.

### **Jul 10, 2010 - Mars Conjunct Pluto**

This transit represents a strong alliance of similar energies. A sense of mystery pervades otherwise mundane events. Aggressiveness peaks. Care should be taken to secure your holding, protect your possessions and yourself, for this transit includes some vulnerability to the principle of redistribution. You might be knocked off your throne for no apparent reason. You could emerge from this period thinking the universe is a quixotic, capricious place, or you could take events as keynotes of respect for structure and self-care.

Sexual energy will be high. You could find yourself surrounded by irresistible people, and the tendency is to think that the veil between you and them is much thinner than it really is. Take time to treat people respectfully. Take this opportunity to de-objectify your world view and adopt a more service-oriented demeanor. Depending on how successfully you have mastered life's trials, this could be a time of "icing on the cake". Just make sure the recipients of your "death blows" are the nasty loitering ghosts in your own psyche, not the people on the street whom these ghosts resemble.

### **Jul 11, 2010 - Mars Square Moon**

Fatigue leads to strife, so relax. There may be illness and you may lose your grip on things. Refuse to take yourself too seriously. Go to bed and rest instead of brooding; you'll avoid strife and trouble thereby. Force no issues. Energy may find its expression in some glamorous romance which may or may not be important, depending on other long-range transits in force at the same time with this.

### **Jul 15, 2010 - Mars Conjunct Uranus**

Expect temperament, haste and anxiety. Your nerves require watching. These problems can lead to illness from fatigue and nervous exhaustion. You risk accidents (literal and figurative!) from excess speed and lack of care over details. Watch temperament. Accidents in the realm of human relations result from overemphasizing the ego and minimizing the other fellow's viewpoint. Inventiveness abounds; originality is in the saddle; but you can't get your best and truest ideas over to any good advantage, and simply make trouble if you "try too hard." Store them up for a later time when you express them better and when other people listen to you more readily. Look out for machinery, travel, electricity; avoid danger, be careful getting on and off trains and crossing streets.

### **Aug 18, 2010 - Mars Square Mercury**

Quick speech, thought and actions make strife and trouble. Be silent, cagey, noncommittal. The quick retort makes trouble. Wrong decisions often come in one of these periods, which recur about every six months and need careful watching. Sometimes the most casual remark results in a lasting grudge. Mountains (of trouble) grow out of molehills (of speech). It is best to be silent.

**Sep 7, 2010 - Mars Square Sun**

Domestic matters are important. This transit frequently times a move from one house (or town or locality) to another, or some important decision in the private life. New starts work out if well considered and unmotivated by temperament. Social activity is increased; you have lots of friends around you. This is a good time to begin new ventures for quick completion, ventures which have a bearing on your longer-range plans. This is a good time to clean house, redecorate, etc. The home is likely to be upset, and it's wise to make the upsetting literal and to some good purpose, instead of figurative and quarrelsome.

**Sep 13, 2010 - Mars Conjunct Mars**

This is a period when new starts should be made, new plans put into execution, new ideas promoted. Energies work along their most characteristic line and can be utilized to excellent advantage. Control natural impulses if you have any that get you into trouble, because now is the time when you are "being yourself" and it is your business to be your best self, not your worst. You are starting a two year cycle and should establish the line you want to continue on for the next twenty four months. Seek new contacts, new avenues of self-expression, new channels into which to direct talents and energies. Beware lest anger and temper - letting go because you're feeling your oats - interfere with your best development. In your life check-up you will find that these recurrent two year periods marked with great consistency periods of important decisions, developments, activity and changes.

**Sep 30, 2010 - Mars Square Jupiter**

This will generally not amount to much, but periods of loss through risks or gambles or through over-enthusiasm or bad business judgment are frequently marked by it. The outlook is too enthusiastic to let sober reason dominate; but this generally brings nothing but minor extravagance. This transit might mark some major material setback due to a combination of bad judgment and bad luck.

**Oct 16, 2010 - Mars Conjunct Neptune**

Super intuition gives you uncanny insight into motives and methods of other people, but not always into your own. Practice self-analysis. You swiftly feel your creative power, of which you can make good use. Beware sensationalism, sentimentality, self-indulgence; fight subconscious urges, suppressed desires, and make your inner ego work for you along constructive lines. This is an excellent period for creative work, for impersonal use of magnetism for business ends and aims and for social popularity. You have glamour that attracts others: be sure it attracts the right kind of people and for the right reasons. The Old Adam rears his head and may require discipline.

**Nov 6, 2010 - Mars Square Venus**

Social and romantic glamour leads to excesses, sometimes to strife, quarrels, separations. Minor loves and friendships break up, but important relations are merely strained; and indeed this frequently adds glamour to a deep love, intensifying its beauty. A break here, unless contributed to by some more important transit, is a sure index that the feeling wasn't very deep or important

anyway. Avoid excess spending and stay away from temptation if you're interested in sticking to the conventions.

### **Nov 8, 2010 - Saturn Square Mercury**

This aspect deepens mental processes, providing concentrative powers for deep study and thought. It is usually accompanied by some mild or acute melancholy and depression, which work and self-discipline will minimize. Loss of self-esteem is likely - the thought that you're no good becomes acute. Keeping your mind on things outside yourself helps. Study, reading and writing are excellent, though creativeness and originality fail you. Don't worry must be your motto; also Face the facts. Escapism leads into bad nervous tangles. This is a good aspect to have while in school or college, when opportunity for study is greatest and the "cold, cold world" is not yet a reality that you have to consider. Coming later when you're out in the "cold, cold world," it indicates a period when you can return to the student state to good advantage, putting your mind on objective fact rather than on emotional concerns. Finances are under tension; there is a need for budgets, restraint and efficiency.

### **Nov 9, 2010 - Saturn Opposite Saturn**

This transit occurs three times during the normal lifetime and at each occurrence marks very deep and important changes. Its action is always along similar lines, and its results are permanent in their effects. It increases your awareness of conditions that surround you; it sensitizes you to yourself and to the world you live in; and it forces on you fundamental realizations of your capacities, your limitations and your opportunities. These realizations, arising from within yourself, generally lead to a complete revision of ideas and plans, so that by the time the aspect is passed you are a new person, living a new life with a deeper purpose, and aiming at a more thoroughly comprehended goal. Occurring around the ages of forty to forty-five, this aspect marks, generally, a turning point in the career, following which the aim should be security rather than further aggressive progress. According to the choice made when you were from thirteen to fifteen years of age, this second transit of Saturn opposite its own place will find you in a satisfactory or unsatisfactory mental and material position. Regardless of this, however, you must recede hereafter from aggressive action in the world; must fix your aims at personal, rather than material, progress; and must set your goal at security. Business changes frequently are made at this time and work out well if risks are avoided and iron-clad contracts substituted for hit-and-miss methods. Falling in the well-known "prime of life," it sometimes urges further expansion of the ego. But for the best results you should be willing to start taking a more moderate and secure course than you have hitherto followed. And to be sure that you do this, examine any change you consider now primarily in light of the effect that it will have on your security and your personal contentment in years to come.

### **Nov 22, 2010 - Mars Square Pluto**

This transit represents a strong alliance of similar energies. A sense of mystery pervades otherwise mundane events. Aggressiveness peaks. Care should be taken to secure your holding, protect your possessions and yourself, for this transit includes some vulnerability to the principle of redistribution. You might be knocked off your throne for no apparent reason. You could emerge from this period thinking the universe is a quixotic, capricious place, or you could take events as keynotes of respect for structure and self-care.

Depending on how successfully you have mastered life's trials, this could be a time of "icing on the cake". Just make sure the recipients of your "death blows" are the nasty loitering ghosts in your own psyche, not the people on the street whom these ghosts resemble.

**Nov 23, 2010 - Mars Conjunct Moon**

The urge to express yourself induces you to express your most temperamental self. In emotional people this marks, as it recurs every two years, some tension and inner turmoil directly related to the inner self that they are trying to express in the world. It leads to strife, unconventionality, inner discord which transfers itself to the outer world. It is an excellent time for a vacation or for lying low and forcing no issues. Frequently the transit marks ill health for yourself or your mate. The best result of this transit is awakened and increased self-knowledge. One of these periods in the life check-up will frequently mark a major emotional experience that you have never forgotten. The inner nature is brought rudely into contact with realities, and false notions are stripped away, frequently with great personal upheaval.

**Nov 26, 2010 - Mars Square Uranus**

This transit is not usually important except as a marker of temperament and minor strife. But at one of these periods some major break due to temperament - some sudden shift in the pace and direction of the life - is likely to occur. The individuality is suddenly awakened to broader horizons, greater worlds to conquer, and determined to shake off the shackles of restraint. In undisciplined persons this will mark periodic temperament, rages, rebellion and strife; also accidents and setbacks due to lack of nervous coordination. In normally disciplined individuals all but one or two of these periods should be comparatively inconspicuous. But the one or two may be memorable and probably nothing to be proud of.

**Dec 23, 2010 - Mars Opposite Mercury**

Quick speech, thought and actions make strife and trouble. Be silent, cagey, noncommittal. The quick retort makes trouble. Wrong decisions often come in one of these periods, which recur about every six months and need careful watching. Sometimes the most casual remark results in a lasting grudge. Mountains (of trouble) grow out of molehills (of speech). It is best to be silent.
