Introduction

Some people call them Angels, others call them guardian spirits, and still others use the name daimon, djinn, or demon (for a fallen Angel). Some Angels appear with wings; others have the form of a lion or other bird or beast. According to many sources, there are nine or ten orders of Angels. The most common are these: Seraphim, Cherubim, Thrones, Dominions, Virtues, Powers, Principalities, ArchAngels, and Angels. Some lists include Hosts. Angels are sometimes called Watchers and Holy Ones.

You may recognize a church hymn that begins:

*"Ye Watchers and ye Holy Ones,
Bright Seraphs, Cherubim and Thrones,
Sing their praises!
Alleluia!"*

Or these lines from Shakespeare's Hamlet:

*"Angels and ministers of grace defend us!" (Act I, scene 4)
"And flights of Angels sing thee to thy rest!" (Act V, scene 2)*

You don't have to practice any particular religion, or any religion at all, to establish a relationship with your guardian spirits. Calling upon Angels is as simple as this:

1. First you recognize that Angels exist.
2. Then you identify an Angelic spirit or energy for which you feel an affinity.
3. Then you praise that Angel, as you would praise the Lord, the Virgin, or any object of your prayers.
4. Only then do you ask for help.
5. Give thanks for whatever help comes.
6. Finally, watch for signs that your call has been answered.

While the Bible only names three Angels (Gabriel, Michael and Raphael), plenty of Angels are mentioned (the word Angel or its derivatives is used about 300 times in the Bible). Other sources list the names of hundreds of Angels, along with their natures and their responsibilities. Many holy books tell us that Angels are appointed to watch over us, and our literature and entertainment are filled with examples of Angelic presence.

This interpretation focuses on the Angels that are most prominent in your life. You will learn who they are, what they govern, what they can do for you, and how they work together. You will also learn ways to become more aware of them - ways to tune in to their protection and their messages. We each have at least one Angel or daimon who is always with us, who never deserts us, and who offers constant creative inspiration, if we only will listen. Today you can learn more about how to listen to your unique set of Angelic guides.

As you read this interpretation, you will again and again find indications of specific ways to call upon Angels quickly and safely through prayer and meditation. I have called these activities meditations, but I personally also see these as prayers and I have included affirmations - short positive statements of personal intention - for your use. As you practice working with your Angels, you will become adept at contacting them in an instant when you most need their support and help. Since they are always around you, calling Angels is never a difficult accomplishment. However, you may not have any experience at calling Angels! Now, as you read and gain some understanding through this report, you can tune in directly to specific Angels for specific aid.

The hallmarks of true Angelic presence are these:

1. The messages are always loving, positive and clear.
2. Angelic messages and support leave you feeling confident, and certain.
3. Angels are not summoned, they are sent. Yet through visualization and meditation, you can become aware of their eternal dwelling in and around you.

In keeping with the qualities of Angels, I encourage you to listen to your Angels. Call upon them for guidance, but do not intentionally summon them. Instead, allow them to enter your presence by meditating on an Angelic image, wrapping yourself in the feeling of well-being and safety that you have experienced in the past, and patiently allowing yourself to fill with Angelic peace.

Angels of the Cardinal Directions

The Angels of the directions may show up in your interpretation later in this report. If they do, by reading this section you will be able to recognize their power. If not, you can refer to this report and consider these four possibilities in your life when you travel in their direction, when you are planning a garden, or when you walk outdoors.

East - Michael

The American Indians associate the eagle with the East Wind. The eagle has remarkable vision and can see things in perspective, as well as identify tiny objects on the ground far below. The East is related to the human kingdom, and the eastern wind brings spiritual considerations into your mind. It is in your nature to determine

what you do with any gift, any task, or any burden you have been given. The Angel of the East can help you seek the higher spiritual meanings of everything you experience.

Through meditation, you can cultivate choices in any situation. In meditation, allow your mind to seek three possibilities. Some of the choices may seem weak or unacceptable to you, but they are still choices. Initially you may have simply said no to such an option. Some of the choices may seem strong for one reason or another. Michael can help you determine which choice is the best for you to follow. Occasionally you will find that your meditation leads you back to the choice you initially refused. What seemed unacceptable at first sometimes turns out to be the best path after all.

If you feel drawn to the Angel Michael, you may want to incorporate an early morning ritual into your daily life. Stand with your face to the sun to gather in energy for your day's activities. This is effective even before the sun rises.

North - Uriel

The buffalo is the animal the American Indians associated with the North Wind. Buffalo medicine was among the most power resources the Indians had, just as the buffalo was their primary source of food, warmth, and everything they needed. The North, then, is associated with material sustenance. The power of the North lies in receiving that which we need. To cultivate the capacity to receive, we need to cultivate the mind.

Through meditation, you can cultivate your mind by developing flexible mental boundaries. The mind can take you wherever you wish to go. Through meditation, you can learn to identify the meaning behind simple facts, and the application of the principles of love to each fact you discover. In addition, the North is associated with the quiet, even dormant quality of mind. You may also develop some skill in allowing your mind to rest quietly, so that insight may arise.

If you feel drawn to the Angel Uriel, you may want to incorporate prayers or acts of thanksgiving into your daily life. By recognizing the bounty in your life, you also enhance it.

West - Gabriel

The American Indians associated the grizzly bear with the West Wind. This strongest of all bears represents Gabriel, a very powerful Angel. The power of the west lies in teaching you about self-sufficiency. The power of the grizzly is to teach patience. This animal seldom hurries for anything.

The West relates to the mineral kingdom. Through your meditation, you may learn the value of certain gems and minerals to heal mental or physical ills. Each gem has existed long before you thought of embarking on your present physical existence. According to Kenneth Meadows in Earth Medicine, the senses can be developed through the use of peridot (vision), onyx (hearing), carnelian (touch), topaz (taste), and jasper (smell).

If you feel drawn to the Angel Gabriel, you may want to end each day with a few minutes of meditation in which you consider the activities of the day, and seek guidance through dreams.

South - Raphael

The animal the American Indians associated with the South Wind was the mouse. This tiny creature has profound wisdom all its own. The mouse perceives the world on a very small scale. This animal reflects your

capacity to relate to things and people by getting closer to them - close enough to touch. Often we engage emotional feelings when we are close enough to physically touch another person.

Raphael can aid you in your meditation by bringing you more in touch with your own body, and with your immediate surroundings. The South Wind emphasizes self-awareness as a foundation for giving to others. Out of self-awareness comes compassion for others. As you cultivate self-awareness, you also begin to trust the Universe to provide whatever you need to become that compassionate being you glimpse in your meditation.

If you feel drawn to the Angel Raphael, you may want to incorporate an activity into your daily life that you do just for yourself. For example, daily bathing offers a private time to allow healing energy to wash over your body.

[Your Most Powerful Angelic Connections](#)

Neptune

The planet Neptune, by its sign, house placement, and aspects, reveals the Angels that most strongly support and influence your life. You always have Angels around you, and you may have identified specific Angels from time to time throughout your life. Some of the Angels mentioned in this report have familiar names, some have unfamiliar names, and there are many Angels without names. You may find that the familiar Angels seem to have more power. This is because they have been invoked many times by many people, and therefore they have more apparent power. Your personal Angels, even if they have no names, are powerful to you, and they help you focus your individual energy more effectively.

Neptune is in Scorpio

With Neptune in Scorpio, you are part of an entire generation of people who share in the influence of the Angel Barbiel.

Prince of the order of ArchAngels, Barbiel is one of the seven electors in the underworld. Scorpio's Angel has both negative and positive facets that are more obvious than some of the other Angels. As with any energy, sometimes we have to understand the dark side in order to reach for the Light. Barbiel's role in your life is to show you both, and help you to develop discerning awareness and the capacity for intelligent choice in the midst of great difficulty.

He tells you that virtues are not everything that life has to offer and that the poisonous side of life can drag you down, but, if you call upon him for help, Barbiel lets you soar like the eagle, thus offering the perspective you

need to convert dark to light and anger to compassion.

Although sources differ, the power of this Angel is often associated with the red healing energy of the root chakra, and with the topaz gem.

Meditation for Barbiel

Meditation requires focus and practice in order to become familiar and easy to do. Yet it requires nothing that you do not already have in the way of clothing, equipment, or mental faculties.

1. Wear loose clothing that will keep you warm or cool, depending on the season and conditions.
2. Before you begin your meditation, take a moment to think about a person about whom you have negative or destructive feelings.
3. Think about that person and the events or situations in which you began to have these feelings.
4. Make every effort to avoid judging yourself or your feelings. Just observe how you feel about this person. This is not fun. However, it can be very informative. It shows how much time you spend on negative thoughts, for one thing.
5. Sit cross legged on the floor or sit in a straight chair. Keep your back straight and rest your hands on your thighs so that your upper arms are vertical and the position feels relaxed. You can adjust your hand position as needed.
6. Gaze at the floor about six to eight feet in front of you, so that your eyes are open, looking slightly downward.
7. Breathe in and out slowly. Follow your breath as it goes out, and feel it as you inhale. Allow yourself to notice any sensations in your body, and any sounds in your environment. Do this for a minute or two.
8. As you relax, think about something positive or good in your life. It could be a beautiful flower, a particular symbol, or a place you enjoy. Allow time to recall this positive thing in as much detail as possible, remembering any associated sounds, smells, or tastes.
9. As you focus on this image, notice the feeling of warmth and comfort that comes over you. Notice how you are able to relax even more. Notice the colors you associate with this comfortable feeling.
10. Now think about that difficult person again for a moment. Now revert to the comfortable image. Oscillate your attention from the person to the image, the person to the image.
11. Continue in this vein for several minutes.

At first this may seem rather silly to you, or you may find it emotionally painful. However, you will very soon notice that your perception of the difficult person has changed! You have the power, with the help of your Angels, to think whatever you choose. This meditation can help you choose to think more positive thoughts.

Sometimes we feel bombarded with negative, destructive thoughts and feelings. Using this meditation does not throw up a barrier against such feelings. It does, however, provide you with a ready alternative to responding negatively.

Some of your negative thoughts will stubbornly resist change. If this is the case, simply return to the image of that thought or person again later and try again. In the mean time, develop an arsenal of comfortable, good things to use in your meditation. You will begin to notice little things like the pattern of moss on a tree or the brilliant color of a flower. All these positives can weigh in to help you change your mind to the positive.

Another benefit of this meditation is that you will be able to be kinder and more compassionate toward the person you so dislike. As you soften your own harsh attitude, you will often find that the other person softens as well.

Neptune is in the 2nd Decanate of Scorpio

Ara - Dharma

Ara, the altar constellation of the second decanate of Scorpio, calls out to you to identify those less desirable qualities that you must give up in order to progress. Intellectual responsibility for your actions is achieved by integrating Angelic support into your daily life. Eventually you will associate all life with transformation. Intellect serves us well in the identification of personal qualities to be cultivated, helping us to avoid emotional traps along the way. You achieve your highest attainment through the aid of Angelic presence.

Affirmation

I seek to communicate ethically at all times.

Neptune is in the 4th House

With Neptune in the Fourth House, your Angelic focus is on spiritual perception. You always understood your family's basic beliefs. As you deepen your connection to your Angels, you begin to understand your own most heartfelt beliefs, and to sort them out from what you have learned from family and peers. You may even be surprised to learn that you can set aside beliefs that have complicated your life and caused you pain.

You have profound emotional sensitivity. This is a valuable resource because it is the conscious edge of your potential psychic awareness. You probably have built protection against emotional overload, and that is good. Now your Angel can help you mobilize that sensitivity to gain what you want and need, and also to aid others.

You have a deeply affectionate nature. You find it easy to love others in all the ways that we can love. You can develop spiritual relationships with friends, lovers, and family. You have sympathy for just about everyone you meet. This natural sympathy will grow throughout your lifetime to become compassion.

Suffering through disappointments provides you with the building blocks of your compassion. Your Angels help you learn to feel compassion for yourself first, and then they show you the path to sensitivity to the problems of others.

Possible weaknesses include melancholy and hypersensitivity. At first it is easy to sink into sadness because of your own suffering, or because you feel the suffering of others too keenly. However, as you gain experience, and as your Angels strengthen your intention, you find that you have profound emotions, and yet you are able to act in a positive way to alleviate suffering. You no longer remain stuck in feelings that are difficult to face and even more difficult to understand. Your Angels provide support and guidance as you learn how to see each situation as a way to offer help to someone in need.

The artist Georgia O'Keefe had Neptune in the Fourth House.

Angels in Your Daily Life

The Ascendant

The Ascendant in your chart is the sign rising in the East at the time of your birth. As such it also reflects the way your personality rises new and refreshed to greet each day. The Angel of the Ascendant also rises each day to assist you in renewing your personality and your personal resolve.

The Ascendant is in Leo

With the Ascendant in Leo, you gain strength from the Angel Verchiel who instills a sense of personal power. The quality that shines forth freely in your personality is loyalty. You demand loyalty from family, co-workers, colleagues and friends, and you learn to demonstrate it to them. You certainly appreciate the steadfastness of your Angels!

You live life to the fullest, expending lots of energy to get the most from every experience. You are usually in the energy flow of the Universe, and you have plenty of energy to share with other people. You are a skilled teacher or facilitator. You sometimes seem to produce miracles when you help other people, and you instill courage in the people you meet.

You like to be in the light. This includes both sunlight and spiritual light. Your extraordinary devotion, when bestowed on family, friends, or work associates, makes others feel special in their own right. Your sense of drama helps you to produce just the right gift or precisely appropriate remark. Your memory serves you well in this regard.

You are a proud person and you may have rather expensive tastes. You are not, however, extravagant. You purchase quality and then keep it.

Humility is a quality you have and can cultivate through meditation.

Meditation on the Water Element

In the Golden Dawn literature, Tharsis was said to have knowledge of soul mates. I do NOT recommend summoning this or any other Angel. I do recommend meditating on his nature, and I also suggest prayers to receive knowledge that can benefit yourself or others. This kind of knowledge is what many people call psychic information. This information is about the present moment, gained in the present moment. It often comes with a powerful emotional charge that demands to be acknowledged.

Your meditation can be aided by meditating on the qualities of water. You can focus on the clarity of calm water, the sprightly nature of streams and flowing water, or the immensity of oceans. You can address the depths of mountain lakes and even the raging quality of a flood. In doing this meditation, you come to understand the rich variety and power within yourself. Emotions become a medium for experience of all kinds.

Meditation on the Fire Element

In the Book of Daniel (3:28), we learn that the Angel of the Lord was in the furnace with Shadrach, Meshach, and Abed-nego when Nebuchadnezzar punished them after they refused to sacrifice to the pagan deity. After the Angel saved them, Nebuchadnezzar was visited with dreams and visions concerning the future.

The Angel of Fire also rules over hidden things. This Angel delivers information in the form of intuition. You can enter into the fire in your meditation to gain knowledge that can later be tested by asking questions and gathering factual information. To do this, place a candle on your alter or on a table in front of you so you can look at the flame without straining your eyes. The flickering flame provides physical movement and encourages mental, emotional, and spiritual movement to match. When all else is still, the movement of the flame allows for movement within your mind. In the gaps between ordinary thoughts, intuition arises.

The Midheaven

The Midheaven in your chart is associated with an Angel who helps you understand yourself, and who is activated at specific times to bring the necessary understanding at moments of great transition or transformation.

The Midheaven is in Taurus

With the Midheaven in Taurus, you make your mark on the world with the aid of the Angel Asmodel who instill patience. You naturally understand the value of other people in your life and want to preserve relationships if at all possible. The same is true about material possessions. You also preserve old thoughts and feelings, and may even stubbornly hold on when you no longer need to do so. Asmodel can support your persistence while aiding you in divesting yourself of old business that no longer matters.

Many of your life goals involve a drive to achieve security. You know what security means in a very personal context. You know the 'slings and arrows' you have been subjected to, and you understand how life's events have shaped your goals. You tend to be tolerant, but when given a reason, you can become distrustful or egotistical.

How do you personally perceive signs that your prayers have been answered, or that your Angels have heard you? Perhaps the greatest sign involves the relaxation of your resistance. You tend to hold on to your thoughts and feelings in much the same way that you hold on to possessions. If possessions rule your life, then so does resistance. Asmodel can help you to focus on opportunities in your life, not on people and things. You don't have to dissolve your beliefs. Instead, Asmodel helps you to hold everything more loosely, in order that movement can occur.

A second sign of Angelic presence is your growing awareness of your capacity to use your will for healing. Alchemists attempted to purify the inner essence of self, shedding the dross composed of negative or destructive thoughts, and resolving the 'lapis' into a pure expression of inner strength. Asmodel reveals your unique path to the alchemical purity of self-awareness. The combination of the Taurus Midheaven and the Angelic energies of Asmodel is indicative of any kind of sustained career activity, including farming, construction, financial planning.

Meditation for The Midheaven

1. Sit or kneel in a comfortable posture, back erect.
2. Begin by breathing in and out, settling into your posture and gazing slightly downward.
3. As you breathe, allow awareness of your healing power to fill your mind.
4. Develop a rich, vibrant feeling of what healing looks like, feels like, and sounds like. Consider all your senses as you build awareness.
5. As you do this meditation for a few minutes, notice how your attitude toward healing may shift or become even more defined.
6. When you are finished, write about your impressions for future reference.

The Midheaven is in the 1st Decanate of Taurus

You sometimes feel that you will never have enough. Angelic presence replaces this feeling with the knowledge that material things actually hold no power. You see that through inviting others into your life and sharing with them, you gain much more.

Neptune is the Ruler of the 8th House

As you cultivate your personal Angels, you discover that what you sometimes see as a struggle becomes a simple step along the path of transformation. Even the final transition into death is a simple step to the next phase of your spiritual life. As your Angels help you cultivate this awareness, joy enters into every aspect of your existence, and new doors open to you all the time.

You sometimes overestimate your own abilities and take on far more than other people. Your Angels reveal that your abilities are not limited, nor is your capacity for love and joy. Your Angels help you to sharpen your instincts and focus your intuition so you can see beyond the so-called normal world into the spiritual realm. Then you discover the greater joys associated with your spiritual, mystical life.

Pisces is a water sign. Your meditation can be aided by placing one or more containers of water around you. Often you can relax your mind while bathing, as the movement of water helps the alchemical transformation process. The watery movement, combined with chanting, reading, or simply thinking about a mantra, can help you to allow change to occur naturally. You may see through apparent reality to a subtler level of psychic experience in this way.

The Sun

The Sun is the center of our solar system, and symbolizes the spiritual center of your being. It reflects your individuality as you express it in this lifetime, and it also expresses your spiritual potential for this lifetime. The Angel closely associated with your Sun sign can help you to be the best, happiest person possible.

The Sun is in Aries

With the Sun in Aries, you gain strength from the Angel Malahidael who inspires courage. Will and power are the dynamic spiritual forces that work directly through your Sun sign, and therefore they are major forces in your daily life. Malahidael will support any creative effort you choose in the material world by helping you to manifest worthwhile results.

In addition, and perhaps more importantly, this Angel offers you a view of your spiritual potential. In little ways every day, you can see the spiritual possibility in everything, if you will only open your eyes. You will perceive your energy acted out through idealism and occasional moments of fanaticism, or through struggle and occasional moments of aggression, or through effort that leads to spiritual evolution.

You also benefit from the guidance of the Angel Michael. Call on Michael to help you transcend ordinary limitations of mind so that you can discover your unique divine plan and follow it each day.

Interacting With Angels

While you are going about your daily activities, the Angels around you are interacting according to your unique personality, desires, and needs. Imagine that you are on stage, acting out your role in life. Behind the scenes your personal Angels are arranging what you need, discussing how you feel, and possibly even debating the best way to help you. You don't have to worry about their actions because they continue to act in your best interests even when you are unaware. The following aspects indicate how your personal Angels work for you throughout your life. If you have no aspects to Neptune, that circumstance is also discussed. As you work with your Angels, you will become more and more aware of these themes and what they mean for you.

The Moon is Opposite Neptune

With Moon Opposition Neptune, you experience the very positive, constructive interaction between Gabriel and Tamiel. Gabriel is the Angel of the Annunciation, and Tamiel is the Angel of the Sea. Sometimes named Rahab, Tamiel is the Angel guardian of dreams. The immense transformational energy of Gabriel merges with Tamiel's primordial power in your personal life, enhancing the power of truth in your life.

With a strong association to Gabriel, your dreams are often prophetic in nature. You may have dreams that you cannot understand at the time. They are composed of familiar people and things, but the associations make little sense. Later, you discover yourself in a situation that recalls the dream precisely. Or sometimes you feel a sense of déjà vu, and you may then recall the previous dream.

You have the natural capacity to perceive the future through dreams. For this reason you may want to record your dreams and follow their meanings. Prophetic dreams have some definite qualities. First, they seem to be true dreams, even when you feel they are somehow absurd. They have an internal logic, similar to the plot of a story. They seem meaningful to you because of the people and places in them. Prophetic dreams have a compelling quality that allows you to remember details. They provoke a feeling of deep mystery and you may be able to communicate the sense of mystery to other people.

Your powers of clairsentience - ability to feel other people's feelings - develop as you become more familiar with Gabriel and Tamiel. You always know something about how other people are feeling. Now you can work to develop your extrasensory ability to discern who is feeling what, and understand other people's feelings separate from your own.

You are somewhat open to negativity from other people. Gabriel and Tamiel work in concert to provide a way to buffer this energy so that you can notice it without taking it into yourself.

Jupiter is Opposite Neptune

With Jupiter Opposition Neptune, you experience philosophical cooperation between Zadkiel and Tamiel. When the Angel of Mercy and the Angel of Primordial Energy meet, you understand the depth of happiness that you can experience. You have had glimpses of this happiness in the past, and perhaps even extended periods when you felt blissful. Now you have a tool to make the interaction between these Angels a part of your daily life.

Through your meditation, you can cultivate a sincere love of humanity. Your Angels guide your thoughts toward compassion and integrate your feelings with the knowledge that you need to express compassion effectively in everyday life.

Naturally idealistic, now you can focus on your idealism and make some of those goals become reality for you and for others. As you listen to your Angels, you find that ideas come to you easily and naturally. Even when you don't know the mechanics for a particular action, you sense the right activity and then either learn how to do it, or find people who know.

You are impressionable. This can be seen as a weakness until you learn to manage the impressions you receive. Initially, when you have no filtering system, you receive impressions from everyone and everything. Part of developing the mind in childhood relates to developing structures and organization for feelings and sensations. Even as an adult, you continue to define and refine your mental structures. Eventually you realize that impressions from other people translate almost instantly into meaning for you.

Another possible weakness is a general lack of muscle tone. It's important for you to find an exercise program that works for you. It can be as simple as a walk every day, or as complex as a serious weight or strength training program. The idea is to aim for some exercise each day, and some activity that builds and maintains muscle strength.

Expand your interest in mysticism through study of one or more subject. Pursue connections between your religious beliefs and your mystical thoughts. Your Angels will fill in the blanks in what you read or study. Meditation allows your mind to sort through what you have taken in. Meditation also allows your Angels to speak directly to you and provide additional insights.

Wisdom comes to you through the association of Zadkiel and Tamiel. Your dreams provide a ready source of inspiration because they put the energies of your Angels into pictorial, auditory, and sensory form.

Saturn is Trine Neptune

With Saturn Trine Neptune, you experience a gentle yet serious confluence between Kafziel and Tamiel. Kafziel is the Angel of memory, solitude, and tears. Together these Angels put you on the path of personal integrity as surely as you follow one thought with another.

Your slow growth of understanding could be seen as a weakness. However, your path is one of steady, almost

certain forward progress. You analyze and consider each decision and each new idea. In this way every step is firm and solid, not tentative or half-hearted.

Intelligent activity becomes part of your nature. Intelligent activity involves the skillful use and application of knowledge, so you must first gain knowledge before you can apply it effectively. Kafziel and Tamiel work in concert in your life by first supplying the means to learn, and then aiding your mind through dreams or visualizations of how to use the information you have gained.

As you allow your Angels into your life, you gain the capacity to maintain hope in the face of seeming disaster. You discover that even in the most difficult circumstances, you have Angelic protection, and you can find a way to work your way out of the problem.

These Angels help you learn how to manage pain. When you or someone else experience severe physical or emotional pain, your Angels provide the means for relieving its severity, as well as providing the path to resolving it altogether.

Zadkiel and Tamiel provide dreams to help you through life's difficulties. You have tenacity of spirit, and your Angels support its use. Sometimes you will have a conscious idea, and you work step by step to make that dream a reality. Other times dreams provide very direct messages about your life. Either way, your mental strength is a special ally throughout your life.

Pluto is Sextile Neptune

With Pluto Sextile Neptune, your life is enriched with opportunities presented by the Angels Metatron and Tamiel. Metatron has been called the King of Angels and the Chief of the Ministering Angels. This Angel is thought to be the pillar of fire the Jews followed in their exodus from Egypt. He is a certain link between you and the divine. Metatron's association with Tamiel, the Angel of Primordial Energies, is extremely powerful.

You undoubtedly experience supernatural events and conditions during your life. Your Angels provide this resource and can help you refine it. Psychic impressions and intuition become second nature to you after a while. You learn to act on intuition in much the same way you would act on advice from your accountant.

One facet of the path of personal integrity for you involves purification of your soul. This means elevating your thoughts above petty jealousy and anger. While you may never overcome negative thinking entirely, working with your Angels will lift you up, step by step, to thoughts of compassion and love. Love overcomes fear and compassion overcomes hatred.

One possible expression of this aspect of your birth chart is that you have at least one extrasensory ability. At first you may experience some confusion in interpreting psychic and intuitive information as it comes to you. You are likely to overcome this confusion once you develop the necessary comprehension of your abilities and thus develop your psychic skills. Meditation each day allows your Angels to contact you more directly to help in this area.

You have the power of a storyteller combined with the wisdom of a seer. You could write fiction or dramatic scripts, and your poetry can become the liquid fire of inspiration and soothing balm for the soul.

Mercury is Quincunx Neptune

With Mercury Quincunx Neptune, adjustments in your life are mediated by the Angels Michael and Tamiel. When the energies of the Angel of warrior spirit and the Angel of Primordial Energies meet, you can expect lots

of action! On the one hand, you have the full power of the confessor, and on the other you have the power of punishment. Sounds grim! However, these two Angels are all about showing you the path of personal integrity. They don't just suggest it, they reveal the path of integrity in pictures, words, feelings, and spiritual inspiration.

Naturally, you have a fabulous imagination. You perceive the past, present, and future as a seamless, integrated whole. You can write powerful drama, fiction, or poetry. Your capacity for artistic expression in music, painting, or sculpting can develop if that is where your interests lie. In focusing on Michael and Tamiel, you find you can imbue all your activities with sparkle and glamour that act like magnets for the imaginations of the people around you.

You have skill in communication about feelings and needs reveals itself in your persona. You can counsel others through peer counseling, training in psychology or psychiatry, religious vocation, or spiritual channels. Your intuitive capacity grows as you focus on the Angelic energies available to you.

You sometimes experience poor judgment when you don't think things through carefully. This is an area where meditation allows you direct access to the support of your Angels. Yoga is another good way to coordinate mind and body so that your thoughts are clear and powerful.

As you work with Angelic presence, you find that any former tendency toward wrong thinking is replaced by thoughts of compassion. No longer ruminating on supposed wrongs from others, you find yourself experiencing the spiritual power within them. Then you choose Right Speech to encourage them to express that power more clearly.

Mars is Quintile Neptune

With Mars Quintile Neptune, your creative talents blossom when you attend to the messages of Samael and Tamiel. Samael is the Angel of Temptation. The gift in this Angelic energy is the power to market yourself and your ideas to others. Tamiel is the Angel of Dreams. Here you find the words and images, the touch and smell that entice others to buy or buy into your schemes.

Spirituality provides a regulator for your feelings and passions. While you definitely want to be successful, the aim is to do so without causing harm to anyone else. Therefore your Angels help you to be persuasive only after finding out what the other person wants or needs.

Sometimes you feel the urge to express yourself in a particular artistic medium. Although you may not sustain this interest long enough to develop expertise, your artistic efforts are deeply satisfying to you and they may grace your home or office, or the homes of family members. If you continue to produce works of art, you may gain a following.

A weakness is the tendency to consider harming others. You may have destructive thoughts, but you never need to act on them. Your Angels help you to channel your energies toward compassion instead of harm.

Another weakness is susceptibility to drugs and alcohol. Here again your meditations with the Angels help you to avoid unnecessary drug use, and to moderate use when drugs are prescribed.

A great strength is your inspired ability to plan grand ventures and then to see them through to completion. Any feelings of inferiority dissipate when you are fully engaged in a project. You magnetically attract just the right people to help you get things under way and approach your goals with few side trips or distractions.

The extent of your compassion is unlimited. As you deepen your awareness of Angelic presence, compassion flows from you to all living things, including the planet itself.

The Sun is BiQuintile Neptune

With Sun Biquintile Neptune, your inner creative capacity emerges from the subconscious as you recognize interaction between Raphael and Tamiel. When the Angel of Healing and the Angel of Primordial Energy meet, you experience the profound nature of healing in your life. It is likely that you always have experienced a degree of physical protection, and now you cultivate that sense of calm and security in your meditations.

Frail physical health may seem to overshadow your life, particularly in childhood. As you gain emotional and spiritual strength, you find that your physical health also improves, and at the very least your attitude about your physical health becomes more creative.

Profound psychic sensitivity is a natural outcome of communion between Raphael and Tamiel. As you immerse yourself in their messages, you find that psychic awareness becomes keener, and you decipher the messages more easily.

Active imagination is another blessing from this team of Angels. You find that your dreams take on clarity as you meditate on them. Even nightmares take on the cloak of creative possibility as you convert the once terrifying content into creative action.

Enthusiasm becomes your watchword! You engage in all your activities with greater vigor and optimism, and your attitude is contagious. All your family and friends bask in the glow of your cheerful persona.

Idealistic thoughts become the impulse for dynamic action. You find that you are able to anticipate the likely results of your actions, and you then gear your efforts accordingly.

Expect your interest in mysticism to increase. Raphael and Tamiel open your heart to divine possibilities, and guide your personal efforts into the channels of integrity.

Venus is BiQuintile Neptune

With Venus Biquintile Neptune, your inner creative capacity emerges from the subconscious as you recognize interaction between Aniel and Tamiel. Aniel is the Angel Guardian of sexuality, and Tamiel governs your unconscious energies and your dreams. Together they form a powerful channel for all creative energy, and sexuality is one of the most potent of these.

You probably have experienced the longing for love. You wish to experience love from family, friends, and romantic partners. Aniel and Tamiel team up to provide all sorts of fantasies in this department, and they also help you to manifest some of those fantasies in truly moving and supportive relationships.

You have a potent erotic imagination. When you think about sex, you are able to supply all the fine lines and broad brushstrokes, all the intonations of voice, and all the physical sensations of passion. Your erotic dreams may take on epic proportions.

You have a well-defined interest in mysticism, even if you don't recognize it at first. You are drawn toward exotic clothing and foods, unusual expressions of faith and love, and even to dark vampire-like expressions of passion and possession. Remember, the light, bright side of love is balanced by darker energies, and to experience the light, you must at least be aware of the darer side of your fantasies.

High ideals, though, can lead you to the spiritual heights of sexuality. You are naturally receptive. Aniel and Tamiel support you in discovering a safe, secure partnership in which you can surrender to passion!

One potential weakness is your susceptibility to influence from others. Infatuation can end in rather crushing disappointment when you find that your expectations are either impossible, or that your partner simply can't meet them. Aniel and Tamiel, in these moments, carry you through your sorrow toward another opportunity for great love.

Chiron is Trine Neptune

Because there are hosts of Angels directly involved with healing, assigning one Angel to Chiron is no simple task. In fact, the influence of Chiron in healing is similar to that of the Angelic hosts: this planet is a catalyst for healing energies within you, much as the Angelic hosts provide an atmosphere of healing within which you can work. However, the energy of Sariel resonates strongly with Chiron.

With Chiron trine Neptune, you have the capacity to work brilliantly with children in a healing setting. The communion between Sariel and Tamiel support you in teaching or providing care specifically to young people. When an Angel of healing meets the Angel of primordial energy, the potential for positive change is ignited within you. Your capacity to cleanse your body and mind of all impediments to health is greatly strengthened by this powerful duo.

Your capacity to heal reflects the partnership you can develop with your Angels. Two factors are important to note:

There is duality in everything. Any illness, discomfort, or mental aberration reflects one side of a polarity. On the other side you can find health, sanity, and satisfaction. Love casts out fear, for example. Pain can instill compassion. Emotional healing occurs when you go through your suffering instead of denying it. Angelic greetings traditionally have included the words, 'Fear not,' because the removal of fear from your consciousness creates suitable conditions for healing.

Physiology mirrors consciousness. As you learn the subtle connections between your belief, thoughts, and feelings and the physical body, you begin to see how positive, optimistic, creative thoughts produce healthy feelings, while negative, destructive, pessimistic thoughts create feelings of illness. You retain your free will, but your Angels create a condition in which you can more readily choose the enlightened path toward greater wellness.

Meditation allows room for your imagination to emerge. Focus on your breath or on an object helps you gain a sense of space in which healing energies can blossom easily. Your Angels provide a bridge from your current state to one of greater intuitive understanding of wellness in your life.

Neptune is Square The Ascendant

With Neptune forming a square to your Ascendant, sometimes you are challenged by physical illness or emotional distress. You find that your moods and stress level contribute to your physical and emotional health problems in obvious ways. Tamiel and your other Angels can help to elevate your moods from sadness or depression to imaginative levels of joy and satisfaction, thus removing one of the impediments to physical health.

Because you are affected greatly by betrayals from others or outright abuse, you benefit from meditation and

finding ways to surround yourself with angelic awareness. Urban legends about angelic companions warding off attackers serve to reinforce the concept that angelic presence is palpably real - you are protected physically by Tamiel and other Angels!

Focus on your Angels to bring light to your personal expression. Your persona takes on a mystical, magical quality when you recognize that one or more Angels accompanies you through every moment, every step of your life. Occasionally other people will remark about your 'presence,' and you will know that they somehow perceive your Angels around you.
